MEDICAL DOCTORS QUESTIONING CORONAVIRUS (ongoing)

Note: Director-General of WHO, Ethiopian Tedros Adhanom Ghebreyesus is the first WHO D-G who is not a medical doctor. He holds an undergraduate degree in biology, a masters degree in immunology of infectious diseases and a PhD in community health.

Anonymous doctor

21.4.20 - Respiratory doctor blows whistle on fake virus pandemic:

<https://www.youtube.com/watch?v=ZVe3PQ-dHwY&feature=youtu.be>

Any incoming patient is labelled a Covid patient. Most patients were never tested but were recorded as Covid deaths no matter what they died of. They're showing the numbers like a football game to scare yo. I've never seen bodies loaded into a tractor trailer. I really don't believe that they were bodies. All this stuff is fake. There is no shortage of ventilators. This is not invasive ventilation – this CPAP or BiPAP* but we were not allowed to use them – they said it would cause the virus to spread. You have to let the patient crash and go straight to a ventilator. Everything that we would traditionally do, we're not allowed to do. They're not testing for a virus. This Covid test is different. They're testing for an RNA sequence for a reaction to the virus. **Then they put it in a PCR, which amplifies it, so if there is one little shred of that RNA sequence from a damaged cell in you lungs or in your nasal passage, you're going to test positive.** That can come from cancer, radiation, from several things. And then you hear all this talk on the news about antibody therapy and people wanting to donate plasma but they're not talking about the virus itself and that's a big issue. Is this

as infectious as they're telling us it is? If so, these machines would all be in use and people would be dying and we're not seeing that. This is unbelievable. Every bit of this has been created. ... I truly believe it is something else causing all this. H1N1 was a million times more scary compared to Covid-19. You cannot vaccinate yourself for a sinus infection. I'm not sure that this is a virus. Does this warrant shutting down the country? For all you Trump supporters out there, we're doing the same thing they're doing in France, Italy, the UK so does that mean Trump is really in charge of this whole thing? Because I really don't think he is. I think he's being told to do what he's doing. I think this is Deep State. Illuminati stuff. They're shutting the world down. The world. And they're putting our kids and grandkids in severe debt for this scam that will never be paid off. Please ask questions, do your homework. Why are we having auto-manufacturers make ventilators? Who's testing them? How much are we paying for them. Is this going to be another corporate bailout where they give themselves million-dollar bonuses while we starve?

* The difference between CPAP, BiPAP and ventilators: <https://aeroflowinc.com/need-ventilator-instead-bipap-cpap/>

Bhattacharya

Questioning Conventional Wisdom in the COVID-19 Crisis, with Dr. Jay Bhattacharya of the Hoover Institution: The official virus narrative is false: https://www.youtube.com/watch?v=-UO3Wd5urg0&feature=emb_logo

Dr. Jay Bhattacharya is a professor of medicine at Stanford University. He is a research associate at the National Bureau of Economic Research and a senior fellow at both the Stanford Institute for Economic Policy Research and the Stanford Freeman Spogli Institute. His March 24, 2020, article in the Wall Street Journal questions the premise that "coronavirus would kill millions without shelter-in-place orders and quarantines." In the article he suggests that "there's little evidence to confirm that premise—and projections of the death toll could plausibly be orders of magnitude too high." In this edition of Uncommon Knowledge with Peter Robinson we asked Dr. Bhattacharya to defend that statement and describe to us how he arrived at this conclusion. We get into the details of his research, which used data collected from hotspots around the world and his background as a doctor, a medical researcher, and an economist. It's not popular right now to question conventional wisdom on sheltering in place, but Dr. Bhattacharya makes a strong case for challenging it, based in economics and science.

Dove

18.4.20 - Dr Verné Dove BVSc Hons BAnimSc (Research: Veterinary Pathology) MVS (Veterinary Conservation Med.) MVS (Veterinary Disease Surveillance) Dip. Conservation PhD candidate (Dolphin Health Assessment) Murdoch University, Australia Universidad de los Andes, Colombia 18th April 2020

I'm a Veterinary Surgeon who graduated from Melbourne University with a double degree (1st: Veterinary Science, 2nd: pathology/toxicology), I have two Masters degrees one of which is in disease surveillance (epidemiology), and I've been doing my PhD on epidemiology and risk assessment. I was also awarded a recent alumni achievement award from Melbourne University.

I've been watching this outbreak since it started, and have correctly predicted its course. You are doing a fabulous job at slowing our curve, and I commend you on what you are doing as you have certainly bought us time. I have two urgent matters to bring to your attention. The first is it is unlikely a vaccination will work. Veterinarians are the only ones with a coronavirus vaccine, and what's been found in vaccinated animals that are subjected to infection with another coronavirus often results in worse pathology and they even have fatal consequences as demonstrated in a few studies. This makes prevention very difficult, and vaccine efficacy will be questionable. This means the focus will need to be on treatment/cure.

The second matter is my current disease hypothesis that may result in successful treatment of critical cases. I have a crazy but very plausible hypothesis, and there's a toxicologist in the USA that has released a similar hypothesis this week, so that's at least 2 of us that believe this is plausible. My theory is that SARS-cov2 causes an increase in endogenous (produced in our body) carbon monoxide production in the body, resulting in carbon monoxide poisoning. Carbon monoxide toxicity fits with everything we are seeing. It fits with the high fatalities with comorbidities particularly diabetes, heart disease and obesity.

It fits with cases overseas just dropping dead in the streets, it fits with the ground glass lung pathology seen. It fits with the symptoms, as carbon monoxide poisoning is often misdiagnosed as the flu, causes headaches, dizziness, fatigue, breathlessness. It fits with the lower than expected success with ventilated patients, as carbon monoxide actually increases in ventilated patients. It also explains the neurological signs seen in some patients, and it fits with the success seen with zinc.

This is 100% a hypothesis, but I can't physically test it. It's simple though, doctors need to test for Carbon monoxide which is simple to do if they are looking for it. We aren't looking for it, so no one is testing for it. Up to now doctors have assumed this is a viral induced disease. I believe the virus does not mean to kill us, this is a mistake that has occurred in our bodies in response to the virus, causing a toxicity event. This is why most people are asymptomatic or have mild disease.

So my theory in a nutshell is the virus causes our bodies to produce more carbon monoxide than usual, which inadvertently causes carbon monoxide toxicity. Treatment is relatively simple as its just in addition to what is already happening, with the addition of using a hyperbaric oxygen chamber. How I came up with this hypothesis. I lived in Bogota, Colombia for 3 years and suffered from altitude sickness. To me this sounds like and looks exactly the same as what I suffered. Carbon monoxide poisoning and altitude sickness present very similar.

Humans produce endogenous carbon monoxide, so I started looking for instances where this carbon monoxide production could be exaggerated, and it all started to make sense. In addition in Bogota, the young coped very well, and travellers new to the region suffered greatly the older they were, so the age fits too with what we are seeing in cases.

Whilst I plan to publish this in a formal paper this will take a month or two, and I would like Australia to have access to this knowledge on the off chance I'm right and we can save lives. It's easy to test for, and if it is carbon monoxide toxicity, it's easy to treat. Carbon monoxide has been found to Increase in pathological conditions. It's not that hard a jump to think that somehow the virus induces certain people to get their carbon monoxide production into a slight overdrive. It doesn't take much to result in carbon monoxide toxicity.

Ioannidis

(US) Prof. Ioannidis from Stanford is featured [in a long interview](#) where he reiterates that the data we have is gravely insufficient, and that the interventions that are being taken might be doing more harm than good — we simply don't know. He is the author of the controversial article "[A fiasco in the making? As the coronavirus pandemic takes hold, we are making decisions without reliable data](#)".

Jensen

Minnesota Senator, Dr. Jensen said that he received a 7-page document from the MN Department of Health advising him to fill out death certificates with a diagnosis of #COVID-19 whether the person actually died from COVID-19 or not. Can we trust the death numbers we've been seeing?" <https://www.valleynewslive.com/content/misc/Sen-Dr-Jensens-Shocking-Admission-About-Coronavirus-569458361.html>

CDC's guidance for certifying Covid-19 deaths not accurate -- no virus testing, only "suspected" cause required: <https://www.greenmedinfo.com/blog/cdcs-guidance-certifying-covid-19-deaths-not-accurate-no-virus-testing-only-suspect>

Dr. Scott Jensen explains that the CDC's present guidelines for determining "COVID-19 deaths" are not evidence-based, and may even have to do with the greater profitability of doing so. His testimony runs directly counter Dr. Fauci, who labeled any criticism of their highly controversial policy "conspiracy theory."

Kyle-Siddell

COVID-19 is a condition of oxygen deprivation, not pneumonia... VENTILATORS may be causing the lung damage, not the virus:

https://www.youtube.com/watch?v=k9GYTc53r2o&feature=emb_logo AND

https://thecommonsenseshow.com/conspiracy-economics-education/bombshell-plea-nyc-icu-doctor-covid-19-condition-oxygen-deprivation-not-pneumonia-ventilators-may?fbclid=IwAR2eN51oPdv5ns7232FKVg64n7_C2G179G8jtMiC014Jd8jsr6GaNNU2nk

COVID-19 is not a pneumonia-like disease at all. It's an oxygen deprivation condition, and the use of ventilators **may be doing more harm than good** with some patients. The ventilators themselves, due to the high-pressure methods they are running, may be damaging the lungs and leading to widespread harm of patients. "In these nine days I have seen things I have never seen before," he says.

[See appendix for fuller [summary of Kyle-Siddell's observations](#) and see below [Joe Imbriano on 60 GHz](#)]

Lee

(UK) Dr. John Lee, retired professor of pathology and a former consultant pathologist for UK's National Health Service, reiterates [in an article](#) that "Covid-19 deaths are a substantial over-estimate", and that **"the measured increase in numbers of deaths is not necessarily a cause for alarm, unless it demonstrates excess deaths** [emphasis mine] – 340 deaths out of 46,000 shows we are not near this at present."

Levitan

Coronavirus Patients - This is what I learned during 10 days of treating Covid pneumonia at Bellevue Hospital. ... I realized that we are not detecting the deadly pneumonia the virus causes early enough and that we could be doing more to keep patients off ventilators — and alive. ... Nick Caputo, an emergency physician in the Bronx. "Rich," he said, "it's like nothing I've ever seen before." ... During my recent time at Bellevue, though, almost all the E.R. patients had Covid pneumonia. ... During my recent time at Bellevue, though, almost all the E.R. patients had Covid pneumonia. ... Even patients without respiratory complaints had Covid pneumonia. ... And here is what really surprised us: These patients did not report any sensation of breathing problems, even though their chest X-rays showed diffuse pneumonia and their oxygen was below normal. How could this be?

We are just beginning to recognize that Covid pneumonia initially causes a form of oxygen deprivation we call "silent hypoxia" — "silent" because of its insidious, hard-to-detect nature. ... Pneumonia is an infection of the lungs in which the air sacs fill with fluid or pus. Normally, patients develop chest discomfort, pain with breathing and other breathing problems. **But when Covid pneumonia first strikes, patients don't feel short of breath**, even as their oxygen levels fall. And by the time they do, they have alarmingly low oxygen levels and moderate-to-severe pneumonia (as seen on chest X-rays). Normal oxygen saturation for most persons at sea level is 94 percent to 100 percent; **Covid pneumonia patients I saw had oxygen saturations as low as 50 percent.** ...

Their pneumonia had clearly been going on for days, but by the time they felt they had to go to the hospital, they were often already in critical condition.

In emergency departments we insert breathing tubes in critically ill patients for a variety of reasons. **In my 30 years of practice, however**, most patients requiring emergency intubation are in shock, have altered mental status or are grunting to breathe. Patients requiring intubation because of acute hypoxia are often unconscious or using every muscle they can to take a breath. They are in extreme duress. **Covid pneumonia cases are very different.**

A vast majority of Covid pneumonia patients I met had remarkably low oxygen saturations at triage — seemingly incompatible with life — but they were using their cellphones as we put them on monitors. Although breathing fast, they had relatively minimal apparent distress, despite dangerously low oxygen levels and terrible pneumonia on chest X-rays. ...

Levitt

NEW 19.4.20 - 'No evidence that Covid-19 is causing huge loss of life':

<https://www.rnz.co.nz/national/programmes/sunday/audio/2018743210/no-evidence-that-covid-19-is-causing-huge-loss-of-life>

Radio interview (downloadable)

Professor Michael Levitt, a Nobel laureate and Stanford biophysicist, says there is no clear evidence that Covid-19 is causing massive loss of life, despite evidence to the contrary in places like Europe and New York City. In fact, Levitt says it has not been a particularly bad year for flu deaths. And the people who are dying from coronavirus are those who are at risk of death anyway. Professor Levitt believes we're been 'primed for Covid-19 panic.' "What you're saying here is the case/fatality ratio. **It's the first time that the diagnosis has been by the presence of viral RNA on the person.** There's now lots of evidence that, for every symptomatic case, there might be as many as 10 asymptomatic cases. So I think that using the case/fatality ratio is a very, very dangerous thing. If you look at Germany, for example, they have a much lower ratio.

Certainly my estimates very early on were that, the most well-defined epidemic so far has been in China, excluding Hubei, the province where it all happened. There were about 120 deaths in China from people who had left Hubei. And they were all very heavily controlled. And there the death rate is 0.84%.

But I still think it depends how you define a case. I think there's evidence now that if you check for coronavirus in places like New York or Germany, 15% of the population have coronavirus. So if you, instead of thinking about cases, think about population fatality rates, they are either five times less than flu or three times higher than flu.

So in some ways we don't yet know that. No one really knows enough about the virus to know what level of infection you need to have herd immunity. I've been looking at this whole question. Let's imagine we have to let this thing burn itself out, we don't have a vaccine. How many people would die until we had something like enough herd immunity to protect us? In some ways, Covid is a little bit nicer than influenza. Not as a disease – it's an awful disease, as is influenza. But influenza tends to kill younger people. I think something like 25% of the influenza deaths are people under 70. Whereas for Covid it looks like only 10% are.

So we don't know yet. I think the answers will be coming very soon with the antibody testing. It will be very interesting to look back on this six months or a year from now. And we'll probably say: **how can we have been so fooled? Because there's been a lot of very, very irresponsible reporting.** Even in so-called high-quality journals like the *New York Times*. I saw an article there where they basically said that coronavirus was going to kill as many people as had been killed in Vietnam, the Korean war and something else. And of course, the number might be the same, but a person dying over the age of 80 is not the same as a soldier dying at the age of 20.

Statisticians know this. Economists know this. **There's a very simple measure called "years of life lost",** where basically, if you die after the life expectancy for your country, that doesn't count. And let's say your life expectancy is 80 and you die at the age of 75, that costs five years. If you die at the age of 20, it costs 60 years. But it seems to me that, just out of a sense of fairness, we have to rank the unfulfilled life as being worth more than a very full life. Otherwise we will have no progress. The key question is going to be, in the 12 months, say from six weeks from now, let's say 1 June. **If we go back 12 months and ask, what are the total number of deaths in the world in that period? Is it significantly larger than it was in previous years?** And I don't know, but I would not be surprised if the excess was very, very small.

It could be that I'm wrong, but not having immunity to Coronavirus is not a good thing. Let's just see. It's been very gratifying, for example... I was actually born in South Africa. And in South Africa there's actually been a *negative* death rate from Coronavirus because of all the murders that didn't happen. Just simply counting deaths is not the way to do this. You need to think about exactly who is dying ..."

"So far, we don't yet know. **It's not clear to me that total lockdown is needed or even desirable.** I'm not saying that it's not desirable. There's no doubt that if you had total, complete lockdown and nobody was allowed to move, you would get rid of the virus. Maybe health professionals will recommend that. But you're also doing a huge amount of psychological damage. Children – panic attacks are enormously common now. I have family members who are suffering from this. And then, of course, the economic toll. And again, if your country's wealth drops by 1%, then the poor people feel 10%. The rich people feel nothing.

Lohse

"The director of the University Medical Center Hamburg, Dr. Ansgar Lohse, [demands a quick end to curfews](#) and contact bans. He argues that more people should be infected with corona. Kitas and schools should be reopened as soon as possible so that children and their parents can become immune through infection with the corona virus. **The continuation of the strict measures would lead to an economic crisis, which would also cost lives**, [emphasis mine] said the physician.' Pall

Dr. Martin Pall, Professor Emeritus of Biochemistry and Basic Medical Sciences at Washington State University

(US) NEW 22.3.20 - Argument for a 5G – COVID-19 Epidemic Causation Mechanism by Martin Pall, PhD: <https://electromagnetichealth.org/electromagnetic-health-blog/5g-covid-19-epidemic/>

Prof. Em. Pall offers the theory that the suppression of the immune system by exposure to 5G towers could weaken the body and increase the detrimental effect of CoViD-19.

"The question that is being raised here is not whether 5G is responsible for the virus, but rather whether 5G radiation, acting via VGCC activation may be exacerbating the viral replication or the spread or lethality of the disease. Let's backtrack and look at the recent history of 5G in Wuhan in order to get some perspective on those questions. An Asia Times article, dated Feb. 12, 2019 (<https://www.asiatimes.com/2019/02/article/china-to-launch-first-5g-smart-highway>) stated that there were 31 different 5G base stations (that is antennae) in Wuhan at the end of 2018. There were plans developed later such that approximately 10,000 5G antennae would be in place at the end of 2019, with most of those being on 5G LED smart street lamps. The first such smart street lamp was put in place on May 14, 2019 (www.china.org.cn/china/2019-05/14/content_74783676.htm), but large numbers only started being put in place in October, 2019, such that there was a furious pace of such placement in the last 2 ½ months of 2019. These findings show that the rapid pace of the coronavirus epidemic developed at least roughly as the number of 5G antennae became extraordinarily high. So we have this finding that China's 1st 5G smart city and smart highway is the epicenter of this epidemic and this finding that the epidemic only became rapidly more severe as the numbers of 5G antennae skyrocketed.

... ***"It is my opinion, therefore, that 5G radiation is greatly stimulating the coronavirus (COVID-19) pandemic and also the major cause of death, pneumonia and therefore, an important public health measure would be to shut down the 5G antennae."***

Raoult

(France) Professeur Didier Raoult, Directeur de l'Institut Méditerranée Infection et spécialiste des maladies infectieuses: <https://www.youtube.com/watch?v=j37S3fuF3w8>

NEW: Interview with Professor Didier Raoult in the Parisien newspaper 22 March 2020: <https://thesaker.is/interview-with-professor-didier-raoult-in-the-parisien-newspaper-22-march-2020/>

...The problem in this country is that the people that talk are abysmally ignorant. I did a scientific study of Chloroquine and viruses, which was published, thirteen years ago. Since then four other studies by other authors have shown that Coronavirus responds to Chloroquine. None of that is new.

That the group of decision makers do not even know about the latest science takes my breath away. We knew about the potential effect of Chloroquine on cultured viral samples. It was known that it was an effective antiviral.

We decided in our experiments to add a course of treatment of azithromycine (an antibiotic used against bacterial pneumonia – ed).

When we added azithromycine to hydrochloroquine, in treating patients suffering from Covid-19, the results were spectacular. ...

ACTION

10.4.20 – Petition to White House: We Call For Investigations Into The "Bill & Melinda Gates Foundation" For Medical Malpractice & Crimes Against Humanity:

<https://petitions.whitehouse.gov/petition/we-call-investigations-bill-melinda-gates-foundation-medical-malpractice-crimes-against-humanity>

Message from Claire Edwards: Arthur Firstenberg has previously connected with the globalists behind the current plannedemic and attempted world takeover. I therefore do NOT recommend that anyone sign the *5G Space Appeal*. As an informational document, however, it remains valid. Explanation of the hijack of the *5G Space Appeal* is here:

<https://piotrbein.wordpress.com/2020/02/17/claire-edwards-the-end-of-the-5g-space-appeal-and-the-beginning-of-the-real-stop-5g-movement/> **AND here:**

<https://www.youtube.com/watch?v=HC1Z7Fo5mgk>.

I do, however, agree with a lot – *NOT* all – of what Arthur has to say below and commend him for being the only scientist willing to tell the truth about the connection between 5G and “coronavirus”. I differ from him in that, in my opinion, there is no “Coronavirus” and the injuries are clearly being caused by wireless technology, and not just 5G, but all Gs. I also commend him for the initiative to educate people to get rid of their cell phones (ECHOEarth, mentioned below), which I did 16 months ago. I hope, however, that this time Arthur is avoiding teaming up with murderous globalists. It would be a good idea to check that before signing up.

Message from Arthur Firstenberg:

http://tr.mail.cellphonetaskforce.org/mk/cliff/whpWzFPcA7cOyepP4H07_xhJ9H0ICTEAnI_FnVscqF8IECL6PekcVg4ie534kpBZ_cZC6RYURto_63Jk0FR0-Uyq9q4u4jwa4l-mtCq1Eyx_IPRSdmsRUtqP226awwN0HgD_HGMMHkruO7Kp0fmmwZvQ8TQsEXVjXhe-7KHtZp_Bu6eGAIp1tDSn5GHQyhJwRYIMv6itbYBul_F9isKQKFeLyK833WP8-k_3bdS7LArvdhrWIIOK9kPAWVg

CHOOSING LIFE

THE WORLD, FOR THE PAST SEVERAL MONTHS, has been distracted from the existential question looming ever-closer on the horizon: do we embrace life, in all its mysteries, pleasures, and storms, or do we bury it? Do we join our hands round the Earth, or do we wash them twenty times a day? Do we mingle together in sickness and in health, or do we hide our heads in the sands of our masks and social distancing, and pretend that our lives and our future do not depend on our physical connections with people, and with birds and bats and flowers and fishes that sustain one another and keep this world going?

We have decisions to make.

While we have all been preoccupied with the coronavirus, a giant ozone hole has developed this spring over the Arctic, unprecedented in size and duration. This is letting high levels of ultraviolet radiation from the sun reach the surface of the Earth. The UV index is higher than normal over a large part of the northern hemisphere. This may in part be the result of the emissions from the hundreds of rocket launches that have taken place in the past few years, largely in the northern hemisphere. About 225 rocket launches are planned for 2020. Will we continue to permit this? Or, once we emerge from our homes and the quarantines are lifted, will we stop?

Instead of mingling together in schools and markets and restaurants and parks and churches, we have retreated into our cell phones and our wireless computers, substituting radiation for life, while the wireless web, on Earth and in space, continues to be woven. Will we continue to permit this? Or, once we emerge from our homes and the quarantines are lifted, will we stop?

INTERNATIONAL DAY OF ACTION, JUNE 20-21, 2020

“Don’t Push the River, It Flows by Itself,” wrote Barry Stevens in her 1970 book by that name. Well, sometimes even the river needs a little push. A new organization has just been formed, called End Cellphones Here on Earth (ECHOEarth), whose members do not own cell phones and whose mission is to end the root cause of the wireless web that is punching holes in our atmosphere and bathing us all in radiation.

ECHOEarth has set the solstice, June 20-21, 2020, as Cancel-Your-Cell-Phone-Account Day, the day we invite you to get off this train and change direction. Details will follow in the next newsletter.

UPDATE ON SATELLITES

SpaceX, which already had 360 satellites in orbit, had planned to launch 60 more on April 2 but delayed the launch due to the coronavirus situation. That launch of 60 satellites took place yesterday, bringing the number in orbit to 420.

Last Friday, on April 27, SpaceX submitted a new application to the Federal Communications Commission, requesting permission to lower the altitude of some of its planned satellites. It previously was going to orbit what it calls its “first-generation” satellites in two tiers – one tier at 550 kilometers (340 miles) in altitude, and a second tier at 1200 kilometers (750 miles) in altitude. Now SpaceX wants to place all 4,408 of its first-generation satellites at the lower altitude. One of its stated reasons is to make fewer of the satellites visible from any point on the earth at any given time. However, the lower the satellites are, the brighter they will be. And the more of them are in the ionosphere (which extends up to about 1000 kilometers in altitude), the greater the impact on life below.

OneWeb, which has launched 74 satellites, has declared bankruptcy and laid off most of its employees after failing to obtain expected funding due to the downturn in the economy caused by the coronavirus shutdown.

CORONAVIRUS: SCIENCE, POLICY AND POLITICS

Many people are afraid of even asking whether 5G is playing a role in the COVID-19 disease that has shut down much of the world. It is similar to the fear that has prevented people from questioning the orders to stay home, wear masks, and keep six feet away from each other.

I am about truth, wherever I find it, wherever it may lead, because our world is at stake, and life itself -- physical, mental, emotional and spiritual -- is being dismantled. Conspiracies have no place in this effort. Neither does fear.

My opinions, based on my reading of the scientific and medical literature, as best as I can determine, are these:

- Did 5G cause the coronavirus? No.

- **Does 5G cause disease similar to the coronavirus? Yes.**

- Did COVID-19 originate in bats? No.

- Is COVID-19 a recombinant RNA virus, created in a laboratory, intentionally or unintentionally, as part of a research program whose purpose was to protect the population? Did it escape accidentally from a virology laboratory in Wuhan, China? Probably.

The measures that have been put in place, and accepted without question, are ineffective, destructive, and anti-life.

Masks do not protect the wearer. Medical masks are ineffective against viruses, and cloth masks provide breeding grounds for them. A 2015 study in the *British Medical Journal* found that healthcare workers caught viruses from their patients 13 times more often if they wore a cloth mask than if they wore a medical mask, and a Chinese study found that a medical mask was no more protective against viruses than wearing no mask at all.

The *World Health Organization* warns that wearing a medical mask “may create a false sense of security” against COVID-19 and that “no evidence is available on its usefulness to protect non-sick persons.”

The N95 respirator, recommended for medical workers, requires training to use properly and “without training, the masks could not only expose workers to the virus but also lull them into thinking they are protected,” according to doctors at the *Harvard School of Public Health*. In practice, even the N95 mask has been found to be ineffective in preventing the transmission of viruses. A review of six clinical studies, published in the *Canadian Medical Association Journal*, found that medical workers caught viruses from their patients just as often when they used N95 respirators as when they used ordinary medical masks.

Masks are harmful to the wearer. COVID-19 kills by causing severe hypoxia (low levels of oxygen in the blood). People wearing masks rebreathe some of their exhaled air, lowering the amount of oxygen they are breathing. “Wearing respirators come[s] with a host of physiological and psychological burdens. These can interfere with task performances and reduce work efficiency. These burdens can even be severe enough to cause life-threatening conditions if not ameliorated,” wrote the author of a 2016 article in *The Journal of Biological Engineering*. When the N95 respirator was tested in use in 2010, the “dead-space oxygen and carbon dioxide levels

did not meet the Occupational Safety and Health Administration's ambient workplace guidelines."

Ventilators do not work and are harmful. Dr. Cameron Kyle-Sidell quit his job in the Intensive Care Unit at Maimonides Medical Center in Brooklyn because he was required to put his COVID-19 patients on ventilators that he felt were killing them because the air pressure was damaging their lungs. His coronavirus patients all had severe hypoxia but healthy respiratory muscles: they needed oxygen, he said, but not pressure.

"COVID-19 lung disease, as far as I can see, is not a pneumonia," he said, but seems to be "some kind of viral-induced disease most resembling high altitude sickness... These patients are slowly being starved of oxygen ... and while they look like patients absolutely on the brink of death, they do not look like patients dying of pneumonia." Italian doctors agree: "Patients on ventilators deteriorate anyway, in an unexplained way... Most of these patients are plainly hypoxic."

PCR tests are not accurate. A March 25, 2020 paper by Carver and Jones found that it is not possible to assess the accuracy of PCR tests because "There are little public data on the false positive and false negative rates of the various RT-PCR based tests." A false positive test means that you are diagnosed with COVID-19 when you don't actually have it. One of the only studies to date that has attempted to estimate the frequency of false positives is Zhuang et al., "Potential false-positive rate among the 'asymptomatic infected individuals' in close contacts of COVID-19 patients," Chinese Journal of Epidemiology, 2020, 41(4): 485-488 (in Chinese). They concluded that up to 80 percent of non-symptomatic people who test positive for the coronavirus may not actually have it.

Shutdowns do not have any effect. Japan, which did not shut down until April 6 and then only with voluntary measures, has 2 COVID-19 deaths per million population. China, which shut down in December, has 3 deaths per million population. Belarus, which never shut down, has 4 per million. South Korea, which has only voluntary measures, has 5 per million. Iran, which shut down in early March, has 62 per million. Sweden, which did not shut down, has 156 per million. Switzerland, which did shut down, has 165 per million. Belgium, which did shut down, has 503 deaths per million population. Vietnam, Laos and Cambodia, all close to China, have no COVID-19 deaths at all. Vietnam shut down in early February, Laos shut down in late March, and Cambodia has never shut down at all. In the U.S., South Dakota, which has not shut down at all, has four times as many cases, but fewer deaths, than neighboring Montana, which is completely locked down.

Death rates in the United States have been going down, not up, since the beginning of the year. If you pay attention to the news, you might assume that record numbers of people are dying. The opposite is true. Not only has weekly mortality for the United States been going steadily downward since January, but mortality has been substantially lower this year than last year. These are weekly mortality statistics for the United States from the Centers for Disease Control:

Week	Number of Deaths 2019	Number of Deaths 2020
1 (January)	58,291	59,087
2	58,351	59,151
3	58,194	57,616
4	57,837	57,000
5 (February)	58,128	56,426
6	58,492	56,962
7	57,917	55,981
8	57,858	55,494
9 (March)	57,920	54,834
10	58,490	54,157
11	57,872	52,198
12	57,087	51,602
13 (April)	56,672	52,285
14	56,595	49,292
15	55,477	47,574
TOTAL	865,181	819,659

We are told that 37,308 people have died this year from COVID-19 through April 18, yet actually 45,522 fewer people have died this year than last year at the same time.

RF radiation and COVID-19 cause similar disease. In my last newsletter ("Is the Sky Really

Falling?”), I noted some effects of COVID-19 that are similar to effects of radio waves. The list of effects in common has grown, and includes headaches, dizziness, nausea, digestive problems, muscle pain, tachycardia, hypotension, cardiac arrhythmias, strokes, and seizures. As many as two-thirds of people who test positive for COVID-19 have lost their sense of smell, often without any other symptoms. Patients are presenting with mental confusion, without any respiratory symptoms at all. Patients are presenting with diarrhea, vomiting, and abdominal pain. When patients with any of these symptoms test positive for the coronavirus, their illnesses are being attributed to that virus. But these are all classic symptoms of radio wave sickness. When both the virus and RF radiation are present, the disease should be attributed to both.

And RF radiation and COVID-19 both cause hypoxia. COVID-19 impairs oxygen absorption by the blood, and RF radiation impairs oxygen use by the cells. COVID-19 would not be so severe were it not for the radiation.

Recently, there is a new symptom that is being attributed to the virus that is exactly what one would expect to see from millimeter waves: a “fizzing” sensation throughout the body. It is being described as a “buzzing sensation,” “a burning feeling,” and “an electric sensation in the skin.” It is probably wrongly being attributed to the virus, and is due instead to 5G.

It is a fact that 5G was turned on in Wuhan, China on November 1, 2019, and that the first known COVID-19 patient became ill there on November 17. It is a fact that there is a research virology lab in Wuhan, and that researchers there coauthored a paper in 2015 with American researchers from Chapel Hill, North Carolina describing a hybrid coronavirus that they had created by attaching a spike protein from bats to a SARS coronavirus. Zheng-Li Shi, the lead researcher from Wuhan, said in an interview in Scientific American that she worried that COVID-19 was a virus that had escaped from her lab, but she reassured the world that she checked and it did not resemble any of the viruses that she had collected in bat caves. Yet in the next sentence she justified her claim that COVID-19 came from bats by saying that it was almost identical to a virus that she had collected in a bat cave in Yunnan.

The SARS virus has escaped from high-level containment facilities in China multiple times. As revealed by the Washington Post on April 14, 2020, U.S. Embassy officials had warned in 2018 that sloppy safety protocols for handling contagious viruses in the Wuhan lab “represented a risk of a new SARS-like pandemic.”

It is also a fact that the animal market in Wuhan does not sell bats. A YouTube video that has been shared on social media that shows bats being sold for meat at a market was actually filmed in Langowan, Indonesia, and not in China at all.

In short, 5G is part of the coronavirus equation, and everything that we have been doing to address the pandemic has more to do with politics and fear than with reality. It is time to re-open society, to take off our masks, and to open our eyes to what is really happening to our world.

ANALYSIS

A great resource: Questioning Covid: <https://questioningcovid.com/>

Provided by GreenMedInfo. Good for them!

20.4.20 - Benjamin Fulford - Chinese and Western Intelligence Services Hunting Down 5G

Telecoms Executives: <https://tremis.de/fulford.htm>

The so-called coronavirus pandemic has now been definitively traced to 5g electromagnetic attacks, multiple sources agree. In order to stop the hardliners and prevent all-out war, an active hunt has begun for all industry executives and oligarchs involved in the 5G rollout, Western and

Asian secret intelligence sources agree.

The targets include the now extinct Bush family and the Chinese Soong family, the sources say. The hunt is necessary to stop full-scale thermonuclear war because Our analysis of the forensics does show a provocation of war ... that is to say we see a full all-out war as highly probable, MI6 sources say.

Chinese hardliners, for their part, are pushing for the destruction of New York in retaliation for the attack on Wuhan, something that could also precipitate a world-destroying war, Asian secret society sources say.

There is also new evidence the current pandemic attack on humanity has been planned long in advance.

Remember the U.S. dollar bills commemorating 911?

<https://armageddononline.org/911-currency-conspiracy/>

Well now take a look at the money issued in the U.S. and the UK to commemorate this pandemic attack.

The first is a fruit-bat (the alleged source of the coronavirus) quarter issued in 2020 by the U.S. mint.

The second is the new UK 20-pound note featuring a picture of a 5g cellphone tower and above it a coronavirus.

<https://www.usmint.gov/coins/coin-medal-programs/america-the-beautiful-quarters/national-park-of-american-samoa>

<https://www.bankofengland.co.uk/banknotes/polymer-20-pound-note>

This shows how arrogant these people are and how they plan long term, while the rest of us must react to what is immediately happening.

However, that is no longer the case with both the British secret service and the Pentagon white hats now actively targeting the families that own the Federal Reserve Board, the BIS, the European Central Bank and the Bank of Japan.

MI6 sources say:

We can sum up the current hybrid World War 3 as two camps of belligerents -those who would protect the sovereignty of the traditional nation-state (l'etat cest moi) and those who would supersede this and impose their will ... by way of hybrid advanced technological totalitarianism. Pentagon sources, for their part, say that the death of [George] Bush Jr. first Secretary of the Treasury Paul O'Neill was the purge of Wall Street when the Fed was taken over and the Monetary Stabilization Fund (ESF) was diverted from the CIA and the deep state. Banks can also be nationalised and forced to pay a tax on all financial transactions, to replace the unconstitutional income tax, sources say.

The Bushes were hired after the deep crash of Adnan Sakli and the BIZ Basel due to intelligence information from MI6, according to sources of the European Royal family. For those of you who don't know: Adnan Sakli was sovereign securities of all nations, companies, central banks and currencies".

Sakli did not want this title, but it was given to him, and given the responsibility he promised to transform humanity from religious, political, economic and corporate to free slavery.

<https://www.facebook.com/notes/alex-mike-cechanowicz/the-legacy-and-demise-of-adnan-sakli/3959524043301/>

Unfortunately, the Bushes and their Nazi friends killed him and fraudulently transferred the accounts.

The Bushes' senior and junior were also involved in the theft of Tesla patents. They kill and steal just like any other mobster, according to MI6 sources. The goal of the current pandemic, staged by the Bush/Rothschild faction is to centralize control and eugenic cleansing of the of the human population, according to CIA sources. In the United States, 5G is controlled by Attorney General William Barr and Foreign Minister Mike Pompeo. Barr also prevented the revelation of the 911 truth. Those of you who think Barr with his FISA gate is a white hat should reconsider. These men must be removed from the political body of the United States as soon as possible.

<https://www.politico.com/news/2020/04/16/william-barr-mike-pompeo-support-fcc-191967>

<https://www.zerohedge.com/geopolitical/ag-barr-blocks-release-911-documents-despite-promises-victims-families>

But before we go any further, let us explain why this pandemic attack is centered on the human race at 5g, citing a reader's comment that is based on the work of three Nobel Prize winners: 5G electromagnetic radiation damages human cell DNA.

The exposed cells (of all species within the human target) react to this by producing a cascade of immunological protection substances.

These substances are packaged in an intracellular structure, a so-called endosome. The endosome is made of is ejected from the cell and becomes an exosome. The exosome circulates and binds to the ACE-2 receptors of the lung, intestine and heart. The exposed cell response is the same if the exposure is 5G or COVID-19 (influenza). The immunological chemicals in the exosome package attack the ACE 2 cells, which produce the effect of 5G radiation exposure or flu, which is disguised as COVID-19. The COVID-19 case rate is 96% in 5G areas and only 4% in 4G or lower areas. 5G is used in well populated areas, so we would expect more cases there. BUT the mortality rate for known outcomes (deaths/(death + recovery)) is more than twice as high in 5G areas as in 5G areas.

This cannot be due solely to COVID-19, and we have statistical evidence for over 1.9 million cases!

The electron microscopic phenomena of the endosome/exosome structure are erroneously referred to as virus particles in the cell/circulation.

This work was awarded the Nobel Prize for Medicine in 2013 - take a look at this; https://www.nobelprize.org/uploads/2018/06/med_image_press_eng-4.pdf

Still not convinced? Well, how about this:

Professor Yitzhak Ben Israel of Tel Aviv University ..., recorded the rates of new coronavirus infections in the USA, Great Britain, Sweden, Italy, Israel, Switzerland, France, Germany and Spain.

The numbers told a shocking story: Regardless of whether the country, like Israel, is under quarantine or how Sweden continued, the corona virus reached its peak and decreased in exactly the same way. In exactly the same way.

[https://townhall.com/columnists/marinamedvin/2020/04/15/israeli-professor-shows-virus-follo ws-fixed-pattern-n2566915](https://townhall.com/columnists/marinamedvin/2020/04/15/israeli-professor-shows-virus-follo-ws-fixed-pattern-n2566915)

In other words, the current pandemic cannot have been caused by a virus, otherwise the quarantines would have made a statistical difference.

The Japanese government confirmed the dangers of 5G when it tested it on the cruise ship Diamond Princess before stopping a planned nationwide rollout of the technology at the last minute.

This introduction was made by the ally of Bush and the representative of the Soong family, Son Masayoshi of Softbank, according to sources within the Asian secret society.

Here's what the P3 Masons had to say about it: Ten percent of the Chinese Communist Party is in the hands of the sister of Madame Soong, a very cruel woman... she's in contact with the daughter of Xi Jinping... they're under the control of the Zionists and the bad page of Israel about the Red Star Foundation using Quanto 49 (Quanto is a derivative used in this case to convert FRB money into Chinese renminbi to convert).

If the Soong family has something to say on their behalf, they know how to contact this writer. Remember that the attack on Wuhan was on a Soros Foundation company, a Rothschild front. The Rothschilds are allied with a Chinese faction that supports the idea of a man-made Armageddon.

OK, now let's take a look at some of the other big changes that are taking place in the world as this hybrid war rages.

In the US, NSA officials have determined that US President Donald Trump was killed by was replaced by a new Trump.

The new Trump has white edges around the eyes and does not have the cheeks of the previous Trump, they say.

However, a White House source close to Trump says no, the same Trump, but he has an almost perfect double.

He has skin cancer and they make Band-Aids.

They cannot treat him normally because he would be out of business for too long and he does not want the public to know about it.

In other words, the double is used for public performances because of the patches, but the real trump card is still in the hand.

In recent developments, the Pentagon has sent 10,000 soldiers to Washington DC and New York sent to clean up with cabalists, Pentagon sources say.

Trump has also called for the liberation of Michigan, Minnesota and Virginia. The US military must now clean up, Pentagon sources describe the situation. Perhaps, but the fighting in this chaotic hybrid war clearly continues to rage, since Prisoners are released en masse, central bank money goes directly to the population while trade is frozen and the economy is in a tailspin.

There are also attempts to create food shortages in the USA by using meat and other food processing plants under the pretext of these electronically pandemic.

https://www.bakersfield.com/ap/national/jails-and-prisons-spring-thousands-to-prevent-coronavirus-outbreaks/articles_cbbea71c-3542-5a28-a459-bb2b54377dae.html

<https://www.zerohedge.com/s3/files/inline-images/port%20of%20LA%20containers.jpg?itok=%20mkbbkcCc>

<https://www.zerohedge.com/s3/files/inline-images/bfmC734.jpg?itok=tZbykXL1>

<https://www.zerohedge.com/geopolitical/price-meat-climbing-quickly-more-food-processing-plants-close>

To deal with the situation, US troops from Afghanistan, Iraq, Syria, Saudi Arabia and other parts of the world. In Asia, the USA has withdrawn all its B52 bombers from Guam. Of course, one has to ask why the USA still has B52 bombers built in 1952, when they had anti-gravity technology that made these planes completely obsolete.

The fact that graduates of the US Air Force Academy are now joining the US Space Agency shows that the discovery of hidden technology is imminent, and this could be the reason why the B52 dinosaurs retire.

<https://justthenews.com/nation/air-force-academy-graduates-join-nations-new-space-force>

Sources at the Pentagon say Trump signed an executive order to Opening up space for international cooperation in the extraction of raw materials and thus demanded a de facto multipolar world order and an end to wars. In Europe, according to CIA sources, German Chancellor Angela Merkel, the French President Emmanuel Macron and British Prime Minister Boris Johnson have been replaced.

In the UK, through a friend of the family, we were able to confirm that Johnson's father was not able to contact his son.

Chaos also prevails in large parts of the rest of the world.

IMF Managing Director Kristalina Georgieva says that 100 countries have asked for emergency financial assistance. However, it appears that the IMF itself has no money because the IMF is desperately seeking new is seeking \$18 billion in loans.

I'm sorry, isn't this the same IMF that says it recently distributed \$8 trillion through the G20? If they spend billions, why are they begging for billions?

<https://www.imf.org/en/News/Articles/2020/04/15/pr20160-remarks-managing-director-kristalina-georgieva-g20-fin-min-cen-bank-gov-meeting>

The general insanity observed in the West is the result of the collapse of a broken paradigm. The IMF, the World Bank, the UN and other pillars of this shattered system are either radically restructured or be replaced by new organisations, according to sources from the European royal family involved in revitalising the system.

It is likely that there will be more hardship and chaos because the old system must first be demolished before it can be replaced by a new paradigm.

However, the people involved in this ongoing pandemic should all be Sources at the CIA, MI6, and the Pentagon say that the two groups may be rounded up.

It is to be hoped that the showers in April will bring the flowers in May.

4.8.19 - Devra Davis: the catastrophic risks of unproven technology:

https://www.youtube.com/watch?time_continue=5&v=DpSSgY19EIA&feature=emb_logo

20.4.20 – Joe Imbriano - Banned on Youtube! This is the most up to date interview on the lockdown and the weaponry: <https://www.bitchute.com/video/9bPycZ3zhRIY/>

Ed. It cuts off half way through because it was banned.

Food with a high vibration which results in a higher consciousness:

www.astoundingelements.com/food-for-a-higher-consciousness

As one goes through life, eating out of necessity becomes a routine. This

routine - depending on where you live - is called; breakfast, lunch and dinner. If the habit of eating includes foods that are not good for you, then one lowers their vibration thus making themselves vulnerable to sickness and disease. This is the danger of unconscious eating.

Organic food has a high vibration

Everything in the universe has a vibration; this includes rocks, trees, plants, minerals, animals, people and so on. These are all measurable in hertz. Hertz, is named after the scientist Heinrich Rudolf Hertz; he was the first physicist to produce radio waves artificially. He proved the existence of electromagnetic waves; and determined that one hertz is equal to one cycle per second. Remember, everything in the universe is energy; there are no exceptions, for example; **a rock may have a low dense vibration, but an apple has a much higher vibration.**

Eating nutritiously is important, but what seems to be ignored - by the consumer, the distributor, the medical community, the educational institutions, the government and the seller - is the value of foods high in vibration.

When eating fresh fruits and vegetables off the plant, tree or vine, the vibrational benefit of the food is maximized. Food shipped long distances lose their vibrational value, as they are picked long before they ripen before they arrive in your kitchen; meaning they did not get the sun required to maximize the vibrational quality of it. It's important to eat organic and local food as much as possible, because the energy in the food is of a high vibration and thus will help keep the body light rather than dense. Furthermore it will reduce the carbon footprint since local food does not require long distance shipping.

A dense body is undesirably and unconsciously achieved in most modern high stress, rat race, and cosmopolitan cities. Here the food choices available are not very high in water or vibration, are filled with sodium content, often bottled, canned or frozen, and are thus simply not good for you. The food choices offered on the majority of city corners are almost exclusively of a low density vibration.

When one eats organic food directly from the plant, the plant is rich in nutrients from the sun. The sun is the key to everything, as it charges these foods to reach their maximum health benefit. These foods are at their optimum when picked ripe right off their tree or plant. Most fast food restaurants, large grocery food chains, even middle of the line eateries offer food that is of a very

A healthy human body operates at 62 to 72 hertz. By raising the vibration of the body disease, virus, fungi and bacteria cannot live; the emotions become pleasant and positive and negative thoughts and emotions do not appear in the thought pattern. Modern society is laced with low density temptations for the palette.

Foods high in vibration are; fresh organic fruits and vegetables, pure clean water, sea vegetation and raw honey. Other foods that have good vibrational value; maple syrup, cooked vegetables (blanch them to retain optimum vibration), raw nuts and seeds, raw organic dairy products (not pasteurized), free range eggs, wild fish, raw oils, such as; cold pressed extra virgin olive oil among others.

One other item of note and importance, give thanks and bless your food before eating and even while preparing and cooking it; therefore it's a good idea to make your kitchen space a special, almost sacred place; because when one practices this, it will lift the vibration of the food.

To find high vibrational foods, steer clear of the large supermarkets, or department stores offering supermarkets in them, as their aisles are primarily loaded with items for fast convenience and low vibrations. However, some supermarkets may be making adjustments, just be vigilant to seek them out, because the vast majority only have an interest in the status quo. As an alternative, **locate fresh produce stores and buy local and organic when possible**. Although harder to find and locate – depending on the city one lives in – health stores also have many products, which are mainly organic. It's also very important to grow your own produce during the growing season, to optimize the nutritional and spiritual value of the food.

The choice is clear, stay away from; fast foods, heavy meats, processed food, large amounts of sodium and sugar in the diet; and head towards a leaner, higher vibrational diet. The results will be a lighter, less dense body; higher consciousness levels, a direct feed of intuition from one's higher self, and living your life's purpose.

For centuries, our primary energy source has been hydrocarbon-based, and since the 19th century, most of that has been in the form of petroleum. In 1975, the US dollar was cemented as

the world's main reserve currency with the establishment of OPEC and the petrodollar system, which obliged the main petroleum-producing countries to accept payment for their oil in USD and to invest their surplus oil proceeds in US government debt securities.

Many believe that the true motive for the Iraq War was because Saddam Hussein converted all of Iraq's oil transactions in the Oil for Food Program to euros and that the Deep State-controlled Bush Administration sought to maintain the USD as the international reserve currency and to block a more widespread adoption of the euro as an oil-pricing standard. After the US' 2003 invasion, Iraq returned the denomination of its oil sales to the US dollar, despite the dollar's decreased value.

Yet today, the fact that China, Venezuela and Iran freely bypass the USD in their oil transactions without triggering similar reprisals indicates that the dollar is no longer worth defending and that its status as the world's reserve currency is coming to end. Perhaps more importantly, this indicates that petroleum as a primary energy source is coming to an end. At the fire sale price points we've been seeing for the stuff, it will no longer be worth it to take it out of the ground.

Many of us are aware that there are alternative energy technologies that have been actively suppressed to maintain the global economic control system and energy paradigm. This interview with Zach Vorhies gives us a glimpse at how the Deep State operates in this arena today. With the fresh eyes we now have from the Great Awakening, after being brutalized for four years by the political - and now biowarfare - antics of the Deep State, we can really see it in the suppression of all-important clean, cheap energy technologies.

Zach Vorhies, who was a Senior Engineer at Google-YouTube for 8 years is back on the X22's Spotlight to talk about the dawn of widely-available clean, cheap energy within the next decade. The topic of cold fusion hit his radar while he was working at YouTube and he saw that Google executives, including current CEO, Sundar Pichai lied to Congress when they denied blacklisting any websites. Vorhies had seen in Google's corporate intranet that several websites were blacklisted in the wake of the Las Vegas shooting. One site however, had nothing to do with the Las Vegas Massacre, Andrea Rossi's independent cold fusion website, E-Catworld.com, about which FKTV [published](#) about a few times, back in 2011.

Further digging led Vorhies to the discovery that Google had their own secret cold fusion laboratory, which has since been made public. So, not only has Google been blacklisting businesses that are competitors of their strategic ventures, they've been actively suppressing vital information about an important alternative energy technology, while attempting to develop it as their own intellectual property.

Zach tells of arranging to meet with the head of Google's cold fusion lab to make an introduction to Rossi, only to be met with a total psychopath, an executive from a cryptocurrency company that Google had acquired who was heir to an old railroad fortune and a Rockefeller crony. A more classic Deep Stater could be scarcely imaginable.

Zach has since become an avid follower of [Ken Wheeler](#), who has further developed Nikola Tesla's Aetherial Mechanics (explained in more detail in the interview transcript below) and developed [SunCell®](#) technology, which is able to tap energy from the Dark Matter found in the water molecules that are freely available in atmospheric humidity.

Unlimited energy would mean a whole new world. As Zach says here:

"This makes wind obsolete. This makes solar obsolete. This makes nuclear uranium fission obsolete. This makes all the other energy systems that we've used obsolete...we can imagine part of it but the new things that will come are the 'unknown unknowns'. We can't even imagine what it would look like in a society with unlimited energy...And not only people - but entire nations...With decentralized abundant energy, everywhere the Globalists lose their main control over the world."

A full transcript of this amazing interview appears beneath the video linked below.

The GreenMedInfo Newsletter

April 20, 2020

I am happy to report that I am starting to witness a critical mass of folks waking up to the fact that the **coronavirus crisis is not just about a loving government** who has required the indefinite suspension of your Constitutionally protected civil liberties and most social and

economic activity in this country **only because it is trying to save us from an inexorably lethal virus.**

Since the launch of our campaign with Stand for Health Freedom, over 20,000 people, in all 50 states, have expressed to their mayors and governors that we can protect and take care of the sick and vulnerable minority of our population without keeping law-abiding, healthy people from making a living (without which health and security of the most basic kind is not possible), or from exercising their right to cultivate natural immunity by being able to socialize, attend school, worship together, and exercise outside in the elements.

Why are so many people waking up? Because millions are now understanding how the official death statistics used to justify the indefinite lockdowns have been, and continue to be **grossly manipulated and over-inflated.** Starting on March 14th, with the **Ferguson report from Imperial College** that proposed over 2 million US citizens would die if a national lockdown was not initiated immediately (an estimate later retracted), these **vastly exaggerated mortality statistics** were used by the pharma-funded media to fan the flames of fear, ushering in our present **medical police state where all our Constitutionally protected civil liberties are claimed to be suspended under the auspices of a national health emergency.**

To take a deeper dive into the truth about COVID-19 death statistical manipulation, watch James Corbett's in-depth report on the topic here:

VIDEO: [Lies, Damned Lies and Coronavirus Statistics](#)

Even now, the WHO desperately clings to a **preposterously over-inflated official COVID-19 fatality rate of 3.4%** (Yes, this is the same global organization that Bill Gates is presently the #1 funder of; a billionaire businessman with no medical background, and who was not elected or officially appointed to make health decisions for you or I) -- even though they have **directed the entire world to label as "confirmed COVID deaths" cases where no virus testing is required; only "suspicion" of infection.** **The WHO's egregiously over-inflated number is the reason why WHO director of Emergencies Programme Dr. Mike Ryan recently stated** that medical authorities may need to **come into families homes and forcibly remove those who are suspected to have COVID.** As you can see, the real world implications of these fatality statistics have potentially **terrifying applications to you and I.**

This is why today's featured article is so important as an evidence-based antidote to the growing specter of medical fascism: [Stanford Team Finds Evidence COVID-19 Mortality Rate Is As Low as .2% \(17 Times Lower Than WHO's Estimate\).](#)

Please help us spread this information far and wide. Forward this email and **campaign** to friends, family, law-makers and health professionals. Together, we are making a difference. **Never before has the phrase, "the truth will set us all free," been more accurate in both its literal and spiritual senses.**

This is also why I'm excited to announce the launch of a new platform called QUESTIONING COVID, which you can explore here: [Clinicians, Researchers, & Health Experts from Around the World Interrogating the Mainstream Narrative Around the Pandemic.](#)

Best regards

Sayer Ji,

Founder of GreenMedInfo

Councils felling trees to hide 5G death rays:

<https://www.youtube.com/watch?v=rVMBrQkFcV&feature=youtu.be>

Councils around the world are felling trees to hide the fact 5G kills trees as well as to ensure nothing blocks the signal. Trees have been felled all over the world where 5G has been or is being installed. One place where lots of trees were felled is Sheffield with the only reason given being they posed a trip hazard. In fact, the true reasons are that 5G was about to be rolled out and trees reduce the signal by 70%. But another sinister reason they were felled was because the council must have known the trees would die and send the message loud and clear to the people of Sheffield that 5G was a very serious health hazard. So serious in fact that it has been used as a weapon. It now seems it is being used as a weapon by corrupt leaders of Sheffield against the people of Sheffield. This is being mirrored all over the world as 5G is rolled out very rapidly having

not been tested as all for safety other than by the military who needed to know how powerful a weapon it was! The whole world is infested with corrupt pigs who are somehow entrapped into the greatest crime against humanity. So entrapped they are prepared to threaten their own health and the health of their families in order to carry out the orders from above. Make no mistake about it: 5G is designed to kill us and your leaders know it!

21.4.20 – Chinese Company Suspected of Spying on U.S. Citizens Donates Police Drones to 22 States: <https://www.nationalreview.com/news/chinese-company-suspected-of-spying-on-u-s-citizens-donates-police-drones-to-22-states/>

Chinese company Da Jiang Innovations, the world's largest maker of drones, has donated drones to 43 law enforcement agencies operating in 22 U.S. states to enforce social distancing rules.

Police in Elizabeth, N.J., for example, are using the drones to surveil residents in places where patrol cars can't easily reach, such as spaces between buildings and back yards.

"If these drones save one life, it is clearly worth the activity and the information that the drones are sending," Elizabeth mayor Chris Bollwage told MSNBC.

WARNING – UPCOMING VERY DODGY 5G WEBINAR

Ed. I see that the globalist-supporting group that was infiltrated by Club of Rome / Budapest / Worldshift are now organising a webinar on what they call "Global Protest Day" 25 April. I'm sorry to say that I find this misguided and misleading, as usual, even though one or two good people are involved. The main problem is that they fail to understand what is really going on here. This is a globalist putsch against the whole world, so thinking that under these circumstances you can reason with international organisations or governments is pie in the sky. The fact is that all authorities on this planet have lost legitimacy and the people need to take power and kick out these criminals. Listen to this US Sheriff say that he is not going to enforce any law that is unconstitutional and that the Declaration of Independence invites the people to overthrow any government that becomes tyrannical: NC Sheriff's Deputy tells it like it is!!! -

<https://www.facebook.com/buddy.cooley/videos/4356561637703296/>.

The line-up here consists largely of incredibly naïve appeasers. You cannot and must not negotiate with mass murderers.

Timothy Schoechle supports fibre-optic cable, which is for big data, the Internet of Things, 5G, social crediting and totalitarian government. Nothing more, nothing less. If you don't want that agenda, you don't want fibre-optic cable.

Julian Gresser seems to be suggesting that you can “rebalance” the satellite programme. “Rebalance” to what end? The satellites are 5G satellites and need to be destroyed. If they are not destroyed, we face electronic elimination or imprisonment and life as we know it is ended.

Elizabeth Kelley proposes pleading with the United Nations Environment Programme to look after the environment, failing to realise that the UN is a Rockefeller organisation and central to this whole 5G conspiracy, which is about eugenics. Environmentalism is simply eugenics under another name. The UN Secretary-General himself is a member of Club of Madrid, the sister organisation of the depopulationist Club of Rome.

I imagine that Cece Doucette and Olle Johansson, both of whom are sensible and intelligent people, may have something useful to say. And Christian F Jensen has made a fantastic contribution with his legal opinion. The others I don't know. So overall, given the suspect guiding force of the discredited stop5ginternational behind this, I would advise anyone choosing to attend this webinar to be extremely wary of misdirection and/or misinformation.

Link: <https://stop5ginternational.org/international-stop-5g-global-protest-day-webinar-panel-presentation/>

Panelists:

Cece Doucette, Technology Safety Educator, will be moderating the panel and open with a brief overview of 5G.

Julian Gresser, International Attorney, Of Counsel, Swankin & Turner, Co-Founder Healthy Heavens Trust Initiative: Rebalancing the Satellite Program: A New Perspective on Transnational Legal Action

Olle Johansson, Professor, retired from the Karolinska Institute, Stockholm, Sweden, former head of the Experimental Dermatology Unit at the Department of Neuroscience; also employed for a number of years at the Royal Institute of Technology, Stockholm, Sweden, as an adjunct and guest professor in Basic and Applied Neuroscience: 5G: A Too Late a Lesson from Early Warnings?

Dr. Timothy Schoechle, Ph.D., International expert in computer and communications engineering technology and policy: Risks of Wireless: Loss of local control, privacy and surveillance, public health and safety, energy waste

Christian F. Jensen, Attorney-at-law, seasoned practitioner in the field of human rights and environmental law and GDPR among other things: 5G Legal Opinion and the Danish Initiatives

Elizabeth Kelley, MA, Director, International EMF Scientist Appeal EMF Scientists: Urge the U.N.E.P to Protect Nature from 5G!

Katie Singer, Author Electronic Silent Spring: Looking Behind Our Screens with Due Diligence

David Gee, Visiting Fellow, Institute of Environment, Health and Societies, Brunel University: 5G: From Insights to Foresight

5G / CORONAVIRUS HEALTH ASPECTS

24.4.20 - Study of the correlation between cases of coronavirus and the presence of 5G networks. Author: Bartomeu Payeras i Cifre. Original Spanish version available at www.tomeulamo.com/fitxers/264_CORONA-5G-d.pdf I am inserting the English translation at the end of this document as it is a whole document itself, of 15 pages. [Click here](#) to go to document below.

FROM A CORRESPONDENT 60 GHZ

When you breathe air into your lungs it gets oxygen into your blood, brain, tissues etc. and oxygen entering your lungs gets picked up by a very important iron containing protein called hemoglobin in your blood.

The impact of oxygen molecules spinning the electrons is that it makes the hemoglobin unable to uptake the oxygen and get it to the rest of your body.

Isn't the fact that the telecom companies are admitting that 60 GHz is absorbed by oxygen just stunning information, and shouldn't the fact that 60 GHz even fundamentally interacts with oxygen, the most abundant and arguably most important element to all of biological life, be headline news that stops everything until we deeply test the implications of that?

24.4.20 - A Vital Paper: David Crowe challenges the discovery of the COVID-19 virus by Jon Rappoport: <https://blog.nomorefakenews.com/2020/04/24/a-vital-paper-david-crowe-challenges-the-discovery-of-the-covid-19-virus/>

Canadian author and independent researcher, David Crowe, has spent several decades analyzing and torpedoing SPECIFICS of conventional medical research. At the deepest level.

I'm talking about, for example, the mainstream claims of discovering new viruses.

Crowe doesn't lay on vague brushstrokes. He goes to the core of fabrications and exposes them, chapter and verse.

His new paper, which he continues to update and expand, is: "Flaws in Coronavirus Pandemic Theory".

Here I quote from the section of his paper where he takes up the question of discovery—have researchers actually found a new virus which they assert is the cause of a new pandemic, COVID-19?

At the end of this article, I list the published papers Crowe refers to by number, as he takes apart the very basis of the COVID illusion.

David Crowe: "Scientists are detecting novel RNA in multiple patients with pneumonia-like conditions, and are assuming that the detection of RNA (which is believed to be wrapped in proteins to form an RNA virus, as coronaviruses are believed to be) is equivalent to isolation of the virus. It is not, and one of the groups of scientists was honest enough to admit this":

"we did not perform tests for detecting infectious virus in blood" [2]

"But, despite this admission, earlier in the paper they repeatedly referred to the 41 cases (out of 59 similar cases) that tested positive for this RNA as, '41 patients...confirmed to be infected with 2019-nCoV'."

"Another paper quietly admitted that":

"our study does not fulfill Koch's postulates" [1]

"Koch's postulates, first stated by the great German bacteriologist Robert Koch in the late 1800s, can simply be stated as":

* Purify the pathogen (e.g. virus) from many cases with a particular illness.

* Expose susceptible animals (obviously not humans) to the pathogen.

* Verify that the same illness is produced.

* Some add that you should also re-purify the pathogen, just to be sure that it really is creating the illness."

"Famous virologist Thomas Rivers stated in a 1936 speech, 'It is obvious that Koch's postulates have not been satisfied in viral diseases'. That was a long time ago, but the same problem still continues. None of the papers referenced in this article have even attempted to purify the virus. And the word 'isolation' has been so debased by virologists it means nothing (e.g. adding impure materials to a cell culture and seeing cell death is 'isolation')."

"Reference [1] did publish electron [microscope] micrographs, but it can clearly be seen in the lesser magnified photo, that the particles believed to be coronavirus are not purified as the quantity of material that is cellular is much greater. The paper notes that the photos are from 'human airway epithelial cells'. Also consider that the photo included in the article will certainly be the 'best' photo, i.e. the one with the greatest number of particles. Lab technicians may be encouraged to spend hours to look around to find the most photogenic image, the one that most looks like pure virus."

"There is no way to tell that the RNA being used in the new coronavirus PCR test is found in those particles seen under the electron micrograph. There is no connection between the test, and the particles, and no proof that the particles are viral."

"A similar situation was revealed in March 1997 concerning HIV, when two papers published in the same issue of the journal 'Virology' revealed that the vast majority of what had previously been called 'pure HIV' was impurities that were clearly not HIV, and the mixture also included microvesicles that look very similar to HIV under an electron microscope, but are of cellular origin." —end of Crowe article excerpt—

In a half-sane world, David Crowe's analysis would provoke an open honest discussion and debate among all sorts of scientists and researchers, and the repressed truth would tumble out and be confirmed.

Of course, we do not live in that world.

Instead, we have mistake-prone researchers and outright liars welcomed into the hallowed pages of medical journals. They are enabled by editors who look the other way.

The consequences, of course, aren't merely academic.

A planet can be placed on lockdown.

Do I really need to say this at this late date—without the discovery of an actual disease-causing virus, the whole "pandemic" falls apart. The whole "spreading virus" assertion falls apart.

21.4.20 - Solving the Wuhan FiveG Mexican beer virus mystery with Dr. Thomas Cowan

(mirror): <https://www.youtube.com/watch?v=TPkOHBZJ3vk&feature=em-uploademail>

You are about to swallow a giant red pill, my friend — but, first, I want to express my sincere condolences to anyone who has been negatively affected by the situation, whether through illness, financial hardships, loss of life, or loss of your former lifestyle. I also released a full episode all about my thoughts and a spiritual perspective on this hardship last week, so go back and check out episode 270. (It ends on a positive note, I promise!). Why are people working so hard to silence this point of view? Who gains from trying to squash anyone who's just asking questions, and what's wrong with asking these questions in the first place? If this hypothesis is just flat out wrong and doesn't include any medical advice at all, why does it need to be removed from every corner of YouTube and censored? As these questions were swirling around my head, I just had to go straight to the source and Dr. Thomas Cowan on a call.

FROM A CORRESPONDENT

A number of scientists/doctors state the way to mitigate new waves of Covid is not through vaccine but through natural immunity attained in the age-old way -

socially: <https://www.naturalhealth365.com/anthony-fauci-covid-19-3375.html>.

FROM A CORRESPONDENT

Here is an excerpt from an interview with the intrepid and brilliant Kary Mullis of PCR fame

"What ABC needs to do," says Mullis, "is talk to [Chairman of the National Institutes of Allergy and Infectious Diseases (NIAID) Dr. Anthony] Fauci and [Dr. Robert] Gallo [one of the discoverers of HIV] and show that they're assholes, which I could do in ten minutes." From this wonderful interview with him: <https://uncoverdc.com/2020/04/07/was-the-covid-19-test-meant-to-detect-a-virus/>. That was related to Fauci's "handling" of the HIV-AIDS situation, and now you can see the update on that <https://www.naturalhealth365.com/anthony-fauci-covid-19-3375.html>.

HOAX

25.4.20 – FROM A CORRESPONDENT

The plandemic perpetrators might have an option of targeted (by time and place) infection, e.g. if a city/country goes on a mass protest against the hoax/manipulation, they could release a weaponized virus and blame it on violating the lockdown. This is likely in light of "promises" that "coronavirus" will return, immunity after being sick is temporary, and only vaccine can save us.

Now we know for sure that the stats of "Covid-19" deaths are doctored and test results compromised. Then, if re-rerun, the modelling study of 11 EU countries would show even lower national infection percentages than those necessary for herd immunity. This is the biggest trap of all. By yielding to the psychosis, some nations will not develop herd immunity (assuming that there is a novel virus).

Jon Rappoport is not a scientist. How would Rappoport know who is sick with "Covid-19" if prior test is necessary to determine that? *Assemble a group of 500 volunteers, some sick, some healthy* I trust Dr Wojtkowiak, a scientist in both medicine and physics. She wrote that PCR can be designed to be accurate.

I would still not trust the system even if an accurate test was devised. In a fog of "pandemic" and artificially stressed health care, even professionals get confused and follow stupid procedures from WHO, e.g routine respirator procedure that is completely out of place and fatal, given patient's true condition. Not all doctors and nurses are as bright as the whistleblowers. Actually, by the stats of quarter million deaths per year in the US (and proportionately in Canada) most of them are dummies trained to follow Rockefellerian "merdicine".

As long as the globalists have an upper hand, they will do everything to outsmart and cheat us, the People. It looks like at present we need to expose them and shame for the hoaxes., with a view on education and appropriate mass actions globally. More or less this way, the 2009, H1N1 "pandemic" was arrested... but only for 20 years. They might have on a shelf a suite of "coronaviruses" with different RNA genome inserts. The perpetrators seem to be in a greater hurry to NWO, and have more formidable technologies at their disposal, plus mass addiction to dumb-phones.

23.4.20 - The greatest criminal fraud in medical history: where's the virus?:

https://needtoknow.news/2020/04/the-greatest-criminal-fraud-in-medical-history-wheres-the-virus/?utm_source=rss&utm_medium=rss&utm_campaign=the-greatest-criminal-fraud-in-medical-history-wheres-the-virus

F. William Engdahl, historian and author, revealed that Dr. Fauci, who has worked at the CDC for 36 years, endorsed the discredited HIV/AIDS "virus" theory that used corrupt science and testing. Roberto A. Giraldo, MD and Etienne de Harven, MD wrote that the major tests used to diagnose AIDS, including the ELISA, Western blot, and the PCR genetic test, are invalid. The doctors wrote, "None of these tests detect the HIV virus itself, nor do they detect HIV particles. The fact that after 25 years of intense research HIV has been neither isolated nor purified in terms of classical virology indicates to us that the infectious view of AIDS as a contagious viral disease is based on an apparently non-existent microbe!"

This scenario is playing out again as COVID-19 has yet to be isolated and proven. Suspiciously, the 2006 article by Giraldo and de Harven was suddenly retracted by the journal in 2019 just before the coronavirus Wuhan outbreak.

Fauci and his cohorts, Dr. Deborah Birx, the White House COVID-19 Task Force coordinator, and CDC Director Robert Redfield, are complicit in the HIV/AIDS frauds and malpractice, and today they hold the future of not only American public health, but also of the entire world economy in their hands.

Dramatic political and social decisions are being made across the United States and around the world on what emergency quarantine measures and other steps must be taken. In many cases the radical and severe measures, such as shutting down the world economy, are being justified by COVID-19 case projections of morbidity into the future. If there is one person who is the face of the current strategy of dealing with the coronavirus in Washington it is the Director of the US National Institute for Allergy and Infectious Diseases (NIAID) of the NIH, Dr. Tony Fauci. What major media conveniently leave out in discussing Fauci's role is his highly controversial and conflicted history since he first joined NIAID in 1984 during the beginnings of the AIDS panic. His role then sheds valuable light on his remarkable and highly controversial actions today.

Tony Fauci, a leading member of the White House Coronavirus Task Force, is being promoted by major US media such as CNN, MSNBC or the New York Times as the great expert on all related to the Covid19 outbreak. He had dismissed the President's efforts to promote a known malaria medication as treatment for severe corona patients as "anecdotal," even though seven years before he backed the same drug. He has publicly taken projections from an institute created in Washington State by the Gates Foundation, the same foundation that virtually owns the WHO and owns major stakes in the leading vaccine makers, to claim that up to 200,000 Americans could die from COVID19. Fauci stated that COVID19 is "probably about 10 times more lethal than the seasonal flu," which would mean 300-600,000 coronavirus deaths this year, at the same time in a respected medical journal he compared Covid-19 as similar to seasonal flu in morbidity. When questioned how long the shutdown of much of the US economy must last, Fauci replied only when there is zero new covid19 positive tested cases, something impossible given the defective [testing](#). He has also backed direct human tests of novel vaccines with no prior animal tests, including with radical non-tested mRNA gene-edited vaccines.

Fauci has more influence over US national policy on the unprecedented Covid-19 pandemic than anyone, including the President. Much of media treats him with awe as an unimpeachable scientist, one of the world's finest. A closer look at Anthony Fauci's career gives a starkly different picture, a very alarming one in fact.

America's AIDS Czar

Tony Fauci has held the top post at the NIAID in Washington for an astonishing 36 years. Today he is well past retirement age at 79, and holds the funds to determine which drug companies or university researchers will get precious government funds or not from NIAID's annual \$5 billion budget.

Let's go back to 1984 when Fauci was named head of NIAID during the Reagan era. That year an AIDS researcher, Robert Gallo, working under Fauci, held a press conference to announce that he had "discovered" the AIDS virus. He said it was HIV— human immunodeficiency virus. The shocking announcement which went around the world, was in complete disregard of scientific procedures of prior peer-reviewed published scientific evidence, including the required electron microscope analyses. It was a case of "science by press conference" as a critical scientist, Prof. Peter H. Duesberg described it. Duesberg was an award-winning researcher at Berkeley who isolated the first cancer gene through his work on retroviruses in 1970, and mapped the genetic structure of [these viruses](#).

For Gallo and Fauci, that was unimportant as millions in research funds flowed into NIAID to research the new virus, HIV. Fauci and Gallo claimed that AIDS was highly contagious, also by sexual transmission, especially among homosexual men. Notably, before the Gallo claim to have found the HIV AIDS virus, NIAID had been doing research on the role of drugs, poppers or nitrites, proven immune-suppressants, in the deaths of the earliest AIDS patients. That was quickly dropped in favor of researching a "cure" for AIDS. Media was told that AIDS was the "public health threat of the Century." Gallo went on to make millions on his patented blood test for HIV, despite the fact that the test was often giving false positives and did not test directly for the alleged virus but for active antibodies, something immunology practice said was not valid, as antibodies merely suggested a past infection response and not necessarily presence of HIV. At this time in the 1980's Fauci was responsible for AIDS research at NIAID, a post he still holds.

False Tests?

The issue of HIV/AIDS tests is central. While a frightened world was clamoring for a test, Gallo and Fauci promoted their deeply flawed tests of antibodies. In 2006 Gallo claimed, "HIV tests were highly accurate from the time they were developed in 1984 and have become much more accurate over time..." Highly accurate in 1984 but more accurate than highly over time? Gallo added in response to criticism, "A PCR test for the presence of the virus itself can accurately determine a child's HIV status."

In a sharp rebuttal of the Gallo claims, claims endorsed by Fauci and the NIAID as well as CDC, Roberto A. Giraldo, MD and Etienne de Harven, MD, the scientist who produced the first electron micrograph of a retrovirus, pointed out that both the ELISA and Western blot, and a genetic test, the PCR or 'Viral Load' test, the two major tests used to determine if one has AIDS, are invalid. "None of these tests detect the HIV virus itself, nor do they detect HIV particles." They add that there are "more than 70 different documented conditions that can cause the antibody tests to react positive without an HIV infection." Among the false positive cases are influenza, the common cold,

leprosy or the existence of [pregnancy](#). The same tests are used today to determine SARS-CoV-2-positive.

They [concluded](#), “The fact that after 25 years of intense research HIV has been neither isolated nor purified in terms of classical virology indicates to us that the infectious view of AIDS as a contagious viral disease is based on an apparently non-existent microbe!”

Giraldo and de Harven declared, “The alleged existence of HIV was asserted from the study of proteins, reverse transcriptase activity (RT), and RNA fragments that were found in culture supernatants, not from the direct analysis of purified [viral particles](#).” The CDC requires a positive antibody test for HIV to determine AIDS in the USA. Yet in Africa since 1985 the WHO requires no HIV test or any other laboratory test. Merely the patient’s symptoms that can include weight loss, chronic diarrhea, prolonged fever, persistent cough and such, symptoms endemic to chronic poverty, malnutrition and lack of sanitation.

Yet this fraud has shaped the career of Tony Fauci for more than 35 years. Fauci as head of NIAID has taken millions from the Bill & Melinda Gates Foundation as well as the Clinton Foundation along with tens of billions from US taxpayers for this bogus research. Suspiciously, the 2006 article by Giraldo and de Harven was suddenly retracted by the journal in 2019 just before the coronavirus Wuhan outbreak.

Despite the fact that he knew the established rules of virology, Fauci, as head of NIAID, recommended the Burroughs Wellcome chemotherapy drug, AZT as a “preventive drug” for HIV diagnosed patients even without symptoms! Burroughs Wellcome gave NIAID the study that was deliberately biased for AZT. Fauci even backed AZT for pregnant women despite the grave risk to the fetus. One mark of pregnancy in all women is a higher level of antigens as the natural immune system fights any infection to protect the fetus. AZT or Retrovir, a failed leukemia drug, has been proven to be a [highly toxic drug](#). It was approved for AIDS testing in a record 5 days by Fauci and the US Government in 1987. Today despite more than thirty years funded research and billions of dollars, no effective vaccine for HIV/AIDS exists.

Fauci and Gilead

According to people who have studied the role of Tony Fauci as head of NIAID, his focus has been what is called scientific reductivism, described as “a 19 Century-style, single-germ theory for a complex web of factors that collapsed the immune systems of a subset of gay men in the early 1980s.” He has refused to explore the documentation that a variety of lethal drugs and other toxins such as nitrites could play a role. As a result he has wasted tens of billions of taxpayer dollars since 1984 on dead end experiments. One of his most nefarious was his collaboration with Gilead Sciences.

Not satisfied with having developed a false positive test for AIDS and having gained FDA fast-track approval for AZT to treat HIV-positive patients with serious illness symptoms, Fauci decided to collaborate with Gilead (as in the Biblical “balm of Gilead”) on what came to be called PrEP experiments.

Fauci in 2007 began to finance clinical trials of the AZT drugs in HIV “negatives,” on the theory the chemotherapy would “protect” them from becoming “positive.” That is, testing toxic HIV drugs on otherwise healthy persons to “insure” they never got AIDS. If it sounds mad, it was. Gilead supplied the drug, Truvada, to NIAID between 2007-2012 for Phase III human tests on HIV negative subjects. Four tests of at least 2,000 and up to 5,000 test subjects each, were done. The project was called “pre-exposure prophylaxis” or “PrEP.” Healthy subjects were given doses of chemotherapy drug Truvada on the thesis it could prevent them from one day getting HIV-positive. CDC, in its May 2014 recommendation urged physicians to prescribe Truvada for negatives in the so-called “risk groups,” an official government [imprimatur](#) for an extremely profitable drug.

The FDA ignored two of the four Truvada tests that had failed and been halted. Despite that and owing to data manipulation by Fauci’s NIAID and Gilead, the FDA approved the dangerous Truvada for PrEP. Today Gilead lists the side effects of Truvada: Kidney problems, including kidney failure; worsening Hepatitis B; too much lactic acid in your blood (lactic acidosis), which can lead to death; severe liver problems, which can lead to death; bone problems. They [state](#) that Truvada “can help reduce the risk of getting HIV-1 through sex, when taken every day and used together with safer sex practices.”

The Fauci-Gilead scam of promoting Truvada for healthy people to “reduce risk” of HIV is a marker for the level of medical malpractice and in some cases evident criminal abuse of human health that the current White House coronavirus guru, A. Fauci, represents.

Fauci and COVID-19

In October, 2019 Fauci and his NIAID got \$100 million from the Gates Foundation to develop “gene-based” therapies for HIV and sickle cell disease. That means Fauci still to the time of the first claims of novel coronavirus in Wuhan China, Fauci was still **promoting** a 35-year fraud around HIV. Fauci is also part of the Gates Foundation cabal. In 2012 Fauci was **named** one of the five Leadership Council of the Gates Foundation-created Global Vaccine Action Plan.

This is highly relevant to his role today as the Trump Administration coronavirus “pope.” Has his NIAID or any other laboratory in the world rigorously, with electron microscopy, isolated and purified samples of patients tested SARS-CoV-2 positive for Covid-19? Or are the virus proofs as faulty as Fauci and the AIDS clique have made for HIV?

Coronavirus weekly: as virus numbers peak, governments are charting the path out of lockdown

From Jackson-Webb, The Conversation

Today's *The Conversation* is a bumper crop of programming. Here's a flavour:

Emergency service workers are already at high risk of burnout – coronavirus will make this worse

Paresh Wankhade, Edge Hill University

Nearly 90% of emergency service staff have experienced stress, low mood and poor mental health.

Defunding the WHO was a calculated decision, not an impromptu tweet

Luke Allen, University of Oxford

Trump pulling US funding from WHO served to deflect blame from his own bungled handling of coronavirus.

Politics + Society

Why working remotely feels so jarring – according to philosophy

Deryn M. Thomas, University of St Andrews

Our working lives provide us with something more important than a pay cheque.

Coronavirus: by releasing swathes of prisoners, Iran and Turkey are setting example to the West

- Heroic health workers fighting the non-existent Coronavirus are the new *"tie a yellow ribbon for the troops on the imaginary front line"*

- Trump planned all along to defund the WHO and it has nothing to do with their corruption, lying, incompetence, terrorism or crashing the entire world's economy

- Get with The Plan: you will never work outside home again

- The Plan: release criminals and maniacs from prisons to smash the family, smash society and reserve space in prisons for dissenters

BEAT THE VIRUS

asing

Meanwhile in Colorado

NEWS

16.4.20 - Barr, Pompeo cheer FCC as agency bucks Pentagon in airwaves fight: <https://www.politico.com/news/2020/04/16/william-barr-mike-pompeo-support-fcc-191967>

The Trump administration is divided over a Virginia company's 5G wireless proposals, which defense officials say could foul GPS service nationwide.

The Federal Communications Commission is throwing its weight behind a 5G wireless plan that much of the Trump administration warns would upend the country's GPS systems, harm national security and cost taxpayers billions of dollars.

And the agency has the vocal support of Attorney General William Barr, who [praised the FCC](#) on Thursday for opening airwaves that will, he argues, allow the U.S. to better vie with China — even though Justice Department staff had criticized the same proposal just two months ago. Secretary of State Mike Pompeo also [cheered the FCC's move](#) in a statement late Thursday. ...

15.4.20 - Israeli Professor Shows Virus Follows Fixed Pattern:

<https://townhall.com/columnists/marinamedvin/2020/04/15/israeli-professor-shows-virus-follo-ws-fixed-pattern-n2566915>

Professor Yitzhak Ben Israel of Tel Aviv University, who also serves on the research and development advisory board for Teva Pharmaceutical Industries, [plotted](#) the rates of new coronavirus infections of the U.S., U.K., Sweden, Italy, Israel, Switzerland, France, Germany, and Spain. The numbers told a shocking story: irrespective of whether the country quarantined like [Israel](#), or went about business as usual like [Sweden](#), coronavirus peaked and subsided in the exact same way. In the *exact, same, way*. His graphs show that all countries experienced seemingly identical coronavirus infection patterns, with the number of infected peaking in the sixth week and rapidly subsiding by the eighth week.

The Wuhan Virus follows its own pattern, he [told](#) Mako, an Israeli news agency. It is a fixed pattern that is not dependent on freedom or quarantine. "There is a decline in the number of infections even [in countries] without closures, and it is similar to the countries with closures," [he wrote](#) in his paper.

"Is the coronavirus expansion exponential? The answer by the numbers is simple: no. Expansion begins exponentially but fades quickly after about eight weeks," Professor Yitzhak Ben Israel concluded. The reason *why* coronavirus follows a fixed pattern is yet unknown. "I have no explanation," he told Mako, "There are kinds of speculation: maybe it's climate-related, maybe the virus has its own life cycle."

But what about Italy and their staggering 12% mortality rate? "The health system in Italy has its own problems. It has nothing to do with coronavirus. In 2017 it also collapsed because of the flu," Professor Yitzhak Ben Israel told the news agency. Indeed, Italy's exceptionally high [coronavirus mortality](#) rate is eerily reminiscent of their unusually high [flu mortality](#) rates. Supportive of this theory, [Germany](#), has low flu infection and mortality rates and similarly low coronavirus rates.

Professor Yitzhak Ben Israel concludes in his analysis summary paper that the data from the past 50 days indicates that the closure policies of the quarantine countries can be replaced by more moderate social distancing policies. The numbers simply do not support quarantine or economic closure.

On the reasonableness of Israel's unprecedented quarantine and closure, he commented to the news agency, "I think it's mass hysteria. I have no other way to describe it. 4,500 people die each year from the flu in Israel because of complications, so close the country because of that? No. I don't see a reason to do it because of a lower-risk epidemic."

While the American policies remain less restrictive than those of Israel, it is important to understand the origins of our own "mass hysteria" response. President Trump urged a strong coronavirus response after consulting with [Dr. Fauci and his team](#), who relied on a British model predicting [2.2 million deaths](#) in the United States and 500,000 deaths in the U.K. But that model was developed by Professor Neil Ferguson, who had a [history](#) of wildly overestimating death rates through his prediction models. Professor Ferguson was not known for his reliability, and his 2001 disease model was criticized as "not fit for purpose" after it predicted that up to 150,000 people could die in the U.K. from mad cow disease (177 deaths to date). [Ferguson's U.K. coronavirus deaths prediction](#) is now down to 20,000 people, 4% of the original prediction.

Professor Yitzhak Ben Israel has mathematically shown us that coronavirus closures were a mistake. It's a tough reality. Americans lost their jobs and businesses went under because the United States, along with most first world nations, acted on the chilling predictions of a severely flawed model, a reading of Professor Ferguson's tarot cards. Hindsight is 20/20, so we have to be realistic with our criticism. President Trump did not want 2.2 million Americans to die and did what he thought was necessary to save our lives, relying on a model his advisors told him was trustworthy. It's done. It happened. But it doesn't mean that he should continue the course.

It's been one month since our country declared a national coronavirus emergency and life as we knew it had ceased. Americans have been growing agitated, unwilling to continue in this way, knowing something is wrong. Trump has sensed that his constituency is displeased with the authoritarian power grab by our Governors and has repeatedly stated that he wishes to reopen the country, but that he needs more information to make the right decision. Professor Yitzhak Ben Israel's data analysis provides Trump with the assurance that he needs to reopen America.

Mr. President, please review Professor Yitzhak Ben Israel's research and take bold steps to mitigate the damage to our economy. Now that we see the actual data, continuing the closure course is a greater error, a knowing error, one that can no longer be justified by good intentions.

PROGRAMMING THE PUBLIC FOR THE NEW WORLD ORDER

23.4.20 - From today's edition of *The Conversation*, mouthpiece of the NWO:

Editor's note

Airlines have faced serious crises before, from 9/11 to the Icelandic volcanic eruptions in 2010. But these pale in comparison to the difficulties the industry now finds itself in. The coronavirus pandemic has forced airlines to cut up to 90% of their capacity. The estimated losses are colossal. Virgin Australia has gone into voluntary administration after the Australian government refused to bail it out, becoming the industry's latest casualty. Other airlines, meanwhile, have received multi-billion-dollar bailout packages from various governments. No one knows how long travel will be restricted for – and it's therefore extremely hard to predict what is needed to keep companies afloat, not to mention the differing opinions over which should be helped. There are also serious questions as to how the climate crisis can, and should, figure in any bailouts.

To consider all this and more, in our latest Insights long read, we asked three airline experts to discuss what lies ahead. The industry is undoubtedly at a turning point of some kind – and the steps that are taken now will therefore have long term effects.

Meanwhile, many assume that the British public want lockdown to end sooner rather than later. But this new survey indicates the opposite. And if you're in need of some respite, have you considered reading Shakespeare? It's not that daunting – if you follow these guidelines.

Song – Do You Hear the People Sing? From *Les Miserables*:

<https://www.youtube.com/watch?v=HaYNVOdxc-c>

Learn the words. If enough people learn them, you can hum them in public, find another dissenter and do a spontaneous flashmob (example: <https://www.youtube.com/watch?v=l0ca5Zbi9s0>)

Do you hear the people sing?
Singing a song of angry men?
It is the music of a people
Who will not be slaves again!

Do you hear the people sing
Lost in the valley of the night
It is the music of a people
Who are climbing to the light

When the beating of your heart
Echoes the beating of the drums
There is a life about to start
When tomorrow comes!

For the wretched of the earth
There is a flame that never dies
Even the darkest night will end
And the sun will rise.

Will you join in our crusade?
Who will be strong and stand with me?
Beyond the barricade
Is there a world you long to see?
Then join in the fight
That will give you the right to be free!

They will live again in freedom
In the garden of the Lord
They will walk behind the plough-share
They will put away the sword
The chain will be broken
And all men will have their reward!

Do you hear the people sing?
Singing a song of angry men?
It is the music of a people
Who will not be slaves again!

Will you join in our crusade?
Who will be strong and stand with me?
Somewhere beyond the barricade
Is there a world you long to see?

When the beating of your heart
Echoes the beating of the drums
There is a life about to start
When tomorrow comes!

Do you hear the people sing
Say, do you hear the distant drums?
It is the future that they bring
When tomorrow comes!

Will you give all you can give
So that our banner may advance
Some will fall and some will live
Will you stand up and take your chance?
The blood of the martyrs
Will water the meadows of France!

Will you join in our crusade?
Who will be strong and stand with me?
Somewhere beyond the barricade
Is there a world you long to see?

Do you hear the people sing?
Singing a song of angry men?
It is the music of a people
Who will not be slaves again

Do you hear the people sing
Say, do you hear the distant drums?
It is the future that they bring
When tomorrow comes!
Tomorrow comes!
Tomorrow comes!

When the beating of your heart
Echoes the beating of the drums
There is a life about to start
When tomorrow comes

SPACE

19.4.20 - First Air Force Academy graduates join the new Space Force:

<https://justthenews.com/nation/air-force-academy-graduates-join-nations-new-space-force4>

The first batch of U.S. Air Force Academy graduates directly has joined the U.S. Space Force, the nation's sixth and newest military branch.

"I am proud to stand here today as 86 members of the Air Force Academy's class of 2020 will commission as the first company grade officers of the Space Force," Vice President Mike Pence [said](#) at the graduation ceremony on Friday.

"Although we have 16,000 Active Duty Airmen and civilians assigned to the Space Force officially on the Space Force scrolls, you are numbers 3 through 88," Chief of Space Operations Gen. Jay Raymond said.

The Space Force was created during President Trump's tenure in office, and will focus on U.S. interests in the domain of space.

Documentary: The Connected Universe:

<https://www.documentarymania.com/player.php?title=The+Connected+Universe>

For those of us who may not have had a chance yet to see this documentary it is well worth the watch as a reminder how mentally, spiritually, physically, emotionally and scientifically connected in the greater macro and micro quantum universe. It's one of the best one's I've seen explaining a larger, more wholistic view of unified sciences, theories and research.

The Resonance Foundation has also opened all their online courses and programs for FREE given the current circumstances mankind is facing...

[The Connected Universe](#)

This fascinating journey of exploration of the connection of all things in the Universe is narrated by the legendary Sir Patrick Stewart. With the lens of science, the film reveals the mechanism linking everything in the cosmos.

2.5.06 – Article: Beyond Hope By Derrick Jensen: <https://orionmagazine.org/article/beyond-hope/>

... When we realize the degree of agency we actually do have, we no longer have to “hope” at all. We simply do the work. We make sure salmon survive. We make sure prairie dogs survive. We make sure grizzlies survive. We do whatever it takes.

When we stop hoping for external assistance, when we stop hoping that the awful situation we’re in will somehow resolve itself, when we stop hoping the situation will somehow not get worse, then we are finally free — truly free — to honestly start working to resolve it. I would say that when hope dies, action begins.

PEOPLE SOMETIMES ASK ME, “If things are so bad, why don’t you just kill yourself?” The answer is that life is really, really good. I am a complex enough being that I can hold in my heart the understanding that we are really, really fucked, and at the same time that life is really, really good. I am full of rage, sorrow, joy, love, hate, despair, happiness, satisfaction, dissatisfaction, and a thousand other feelings. We are really fucked. Life is still really good.

Many people are afraid to feel despair. They fear that if they allow themselves to perceive how desperate our situation really is, they must then be perpetually miserable. They forget that it is possible to feel many things at once. They also forget that despair is an entirely appropriate response to a desperate situation. Many people probably also fear that if they allow themselves to perceive how desperate things are, they may be forced to do something about it. ...

9.4.20 - Robert Steele: Holistic Appraisal of Health Solution for Virus:

<https://phibetaiota.net/2020/04/robert-steele-holistic-appraisal-of-health-solution-for-virus/>

Argyrol has been in clinical use for over 118 years and was in hospitals and pharmacies. first aid kits and most home medicine cabinets until about 25 years ago.

Argyrol is immediate to manufacture and market in all jurisdictions [according to Pat Smith who was the Glaxo-Smith Klein Technical Director for South Africa].

In it’s heyday Argyrol had multiple headquarters in the United States, Great Britain, Australia and South Africa; to all appearance Argyrol was ubiquitous. Argyrol ships through customs globally without impediments.

Argyrol is recognized as not new nor alternative and for that reason, can be used off-label [being tested now in Kenya against HIV by doctors and public health personnel at their request].

Christine the owner has used this drug personally to nebulization four years. The dosage was over 2.5mLs daily. The same dosage amount after four years was administered rectally for an additional year.

Daily administration of Argyrol resulted in no heavy metal toxicity, no staining of my mucosa of my throat and absolutely no other reactions of discomfort or irritation to rectal tissue from daily administration of Argyrol at all. She was monitored by her physicians with blood tests and PET scans with no irregularities observed.

The only first reaction was the Jarisch Herxheimer (Healing crisis) which subsided within a few days.

Were there to be bottles of OTC Argyrol Anti-Infective in the hospital pharmacies for respiratory wards, in the pharmacies and everywhere else as there was less than 25 years ago, there would be no global fear gripping individuals without ANYTHING to militate against pandemic pathogens engaging with their bodies on their mucous membranes, for God’s sake and definitely no reason to shut down the entire global economy for ‘the pestilence that stalks in darkness’ noted in Psalm 91:6. How do we look after 25 years without OTC Argyrol? I rest my case.

30.11.03 – Robert David Steele - Review: The Tao of Democracy–Using Co-Intelligence to Create a World That Works for All: <https://phibetaiota.net/2003/11/the-tao-of-democracy-using-co-intelligence-to-create-a-world-that-works-for-all/>

Tom Atlee, the author of this book, gets credit for defining a “bottom up” approach that is sensible and implementable. This book focuses on what comes next, after everyone gets tired of just “meeting up” or “just blogging.” This book is about collective intelligence for the common good, and it is a very fine book.

From: The Handbook for the New Paradigm:

"Remember that we are not to consider the actions or the reactions of the other side. We are going to be dreaming within little known possibilities; therefore all things are possible. The contingent plans of the other side can only work in their known reality. You are going to be setting up a reality that is far outside anything that they have even considered. It is this level of creativity that we are striving to encourage you to reach...Remember your imagination is the entry point to the "mind of God" which is infinite potentiality. The invocation of His Presence when "two or more are present," is true to a degree you limited ones have not yet perceived."

VACCINATIONS

Ed. I am speculating here but feel I should share this. Make of it what you will and please do your own research. I feel sure that the space aspect is crucial and still people are not paying attention to that. From what I hear from two good sources (Daniel Estulin and Joe Imbriano), the globalists will start their planned population cull for real in September. I feel that this is correct because the plannedemic legislation included rolling out 5G as fast as possible and the lockdowns were intended to enable them to do this unhindered. The UK and Switzerland have both announced that they expect to have a vaccine ready by September/October. Both initiatives are associated with the Jenner Foundation and therefore the Pirbright Institute, which holds patents on the coronavirus. So it is all very suspicious, isn't it? Something tells me that the vaccine is part of an electromagnetic radiation weapon. Once the vaccine is inside of you, they can trigger it and they may do this with the satellites. So we must make sure that the vaccine never becomes possible.

24.4.20 - Mandated vaccinations. What you will need to say “NO!”:

https://needtoknow.news/2020/04/mandated-vaccinations-what-you-will-need-to-say-no/?utm_source=rss&utm_medium=rss&utm_campaign=mandated-vaccinations-what-you-will-need-to-say-no

Video: <https://www.youtube.com/watch?v=RhxiqAt779A&feature=youtu.be>

Jerry Day has created a notice-of-liability to give to anyone who tries to force vaccines on you. Even though they refuse to sign, that shows they have been informed that vaccines can cause damage. He offers a second document that lists the reasons individuals have the right to reject vaccines. He says the documents act as an insurance policy if anything goes wrong with a forced vaccine, because it is proof of your objection to the vaccination and, thereby, makes the administrators of the vaccine personally subject to penalty and prosecution. In other words, If you do not object and make your position clear, you may be presumed to agree with unconstitutional laws and harmful public policy.

Download Notice of Liability: <https://www.freedomtaker.com/>

20.4.20 - Fact checking the fact checkers: Bill Gates, ID2020 & vaccine microchips by Spiro Skouras: https://www.activistpost.com/2020/04/fact-checking-the-fact-checkers-bill-gates-id2020-vaccine-microchips.html?utm_source=Activist+Post+Subscribers&utm_medium=email&utm_campaign=3ea9346121-RSS_EMAIL_CAMPAIGN&utm_term=0_b0c7fb76bd-3ea9346121-387838753

Today we are going to fact check the fact checkers regarding many online reports that Bill Gates wants to implant microchips in people using vaccines to fight the coronavirus.

In this report we are going to focus on two articles

that were published which claim to be the arbiters of truth, in these confusing times.

So, is the claim that Bill Gates wants to inject you with a vaccine that contains a microchip to track who has and has not been vaccinated true? Watch the report below and decide for yourself!

21.4.20 - Swift Covid-19 vaccine within reach, say Swiss scientists

https://www.swissinfo.ch/eng/sci-tech/bern-research_swift-covid-19-vaccine-within-reach--say-swiss-scientists/45704796?utm_campaign=swi-nl&utm_medium=email&utm_source=newsletter&utm_content=o

Health experts believe it will take at least a year before a Covid-19 vaccine can be produced.

A team of researchers at the University of Bern is hoping to be the first to

produce a vaccine against Covid-19 and inoculate the entire Swiss population in October.

"We have a realistic chance of being successful," said Martin Bachmann, head of immunology at the Swiss university via a web conference with ACANU, the United Nations press association. "Switzerland has a history of being pragmatic and is more interested in finding a compromise to get the vaccine faster."

Since the beginning of the coronavirus outbreak and its designation by the World Health Organization as a Public Health Emergency of International Concern (PHEIC) at the end of January, most international health experts and authorities have said a vaccine should not be expected for about a year to 18 months - at the earliest.

Unique approach

Bachmann, who is also professor of vaccinology at the **Jenner Institute at the University of Oxford**, said his accelerated timing could be partially explained by potential ease of production, where the equivalent of 200 litres of bacterial bio ferment, which is needed for the jabs, could produce 10-20 million doses.

[Jenner Institute: funded (among others) by the European Commission, Bill & Melinda Gates Foundation, US National Institutes of Health, International AIDS Vaccine Initiative, UK Department of Health, European Vaccine Initiative, Gates Foundation Malaria Programme at the London School of Hygiene and Tropical Medicine, Biotechnology and Biological Sciences Research Council, Department for Environment & Rural Affairs. Partnered with the Pirbright Institute,

“The vaccine is unique because of the huge scalability. It has the ability to produce billions of doses in a short time frame,” Bachmann said.

The vaccine under development by the Swiss team takes a different approach than other labs by using so-called virus-like particles, which are not infectious - unlike when using the virus itself - and which provide good immunity response. A prototype was developed in February, just

weeks after the new coronavirus was identified in China, and proved successful in tests on laboratory mice, when the serum neutralised the virus.

Gary Jennings, CEO of [Saiba Biotech](#) which is working with the University of Bern, said the Swiss authorities are aware of the importance of approving the vaccine’s development. “We can do this if the Swiss government and the regulators want to do it. If they want to see this vaccine made available to the public in this timeframe, then it will be done.”

Getting approval

Swissmedic, the national authority responsible for approving and supervising therapeutics, confirmed that it has already been offering scientific advice to the project and is aware of how the research is progressing.

Spokesperson Lukas Jaggi told [swissinfo.ch](#) that “in this exceptional situation, we realistically have to reckon with eight to 14 months until we have a vaccine against the new coronavirus SARS-CoV-2.”

In an e-mailed statement the communications official wrote that “Swissmedic gives high priority to time. But safety and tolerability of the vaccine come first. It is therefore important that companies and research groups contact Swissmedic at an early stage so that we can accompany and support them in their development before they submit an application for authorisation.”

Development of the vaccine to a point where it could be produced on a large scale will require raising CHF100 million (\$103 million), according to Saiba Biotech, which Bachmann co-founded. While the [USZ Foundation](#), Zurich university hospital’s charitable organisation, has expressed interest in supporting the research, Jennings said that Saiba has already been in talks with pharmaceutical giants Novartis and Lonza.

Worldwide some 2.5 million people have tested positive for coronavirus with 170,000 deaths, including a growing number in countries with limited health services. [Switzerland has reported](#) nearly 28,000 cases and more than 1,400 fatalities.

Anti-Covid therapeutic programme

The [Molecular Partner](#) laboratory in Zurich has launched a therapeutic programme against Covid-19 in collaboration with the [Federal Office for Civil Protection](#) (FOCP). The company says it has identified several specific proteins that can neutralise SARS-CoV-2, the cause of viral pneumonia.

These proteins have been combined to act on three fronts against the virus, in particular by preventing it from penetrating human cells, the company [said in a statement](#) on April 20.

Initial research conducted with virologists at the [Spiez Laboratory](#)^{external link}, a division of the FOCP, has identified “hundreds of proteins” that may have neutralising qualities. Molecular Partners is planning production conditions from the third quarter onwards.

Ed. Here is where the whole conspiracy comes together. Henry de Worms first Lord Pirbright was the mentor of Cecil Rhodes, who initiated the plan for white supremacy. For a great overview, listen to this interview: <https://aim4truthblog.files.wordpress.com/2020/03/2020-02-29-her-royal-bioweapon-exposed-by-gabriel-mckibben-american-intelligence-media-americans-for-innovation-feb-29-2020.mp4>

Makia Freeman: Gates struts around the WHO and, as one attendee shared, is treated like a Head of State at both the WHO and G20. Then, he funds various organizations like Pirbright and Inovio who gain patents for exotic vaccines (as explained in my earlier article [The Coronavirus 5G Connection and Coverup](#)) in advance before Gates' planned pandemics strike. He has also invested in a Chinese

pharmaceutical research company called WuXi AppTec which just happens to be located in Wuhan (yet another coincidence in a long line of coincidences surrounding this coronavirus crisis). WuXi AppTec's mission and vision as stated on their [website](#) is to provide "a broad portfolio of R&D and manufacturing services that enable companies in the pharmaceutical, biotech and medical device industries worldwide to advance discoveries and deliver groundbreaking treatments to patients. With industry-leading capabilities such as R&D and manufacturing for small molecule drugs, cell and gene therapies, and testing for medical devices, WuXi AppTec's [aims] to realize our vision that "every drug can be made and every disease can be treated".

<https://americans4innovation.blogspot.com/2020/02/coronavirus-uncovers-rothschild-lord.html#return>

The Pirbright Institute records show that it is heavily financed by Wellcome Trust, Bill Gates, the European Commission, the World Health Organization and U.S. DARPA. In addition to Wellcome, the pharmaceutical AstraZeneca provides vaccine research funding also.

Same URL:

HOW DO WIRELESS TECHNOLOGY AND VACCINES GO TOGETHER?

Researchers all know that stress increases disease.

Imagine a Coronavirus specially constructed to lie dormant in a person's body until it is triggered by the right radio frequency.

Imagine nano tech devices that can hide inside a vaccine and be triggered by wireless transmissions passing through your body.

Imagine 5G technology that, on command from Cobbett Hill Earthstation, can trigger nano tech devices in all the bodies of the citizens in an entire city.

Is this farfetched? Not at all.

“Directed Energy Weapons” are being openly disclosed by the military. While their propagandists are quick to say the tech is non-lethal, but the assertions are not believable given their history of lying. Their own descriptions indicate the ability to stun, dazzle, blind, deafen, scream at “or even kill” at people while they think they are hearing the voice of God.

5G technology disperses these capabilities to be able to deliver signals to all people in a target area or group at the same time.

The Pirbright Institute appears to be using the Cobbett Hill satellite teleport facilities to communicate with their Pilgrim Society minions worldwide. Perhaps Nellie Ohr's shortwave set was actually communicating with Qinetiq at Cobbett Hill and the Pirbright Institute.

ARE THE C.I.A., MI6 & DARPA BUILDING BIO-WEAPONS LIKE CORONAVIRUS VIA QINETIQ, SERCO AND THE PIRBRIGHT INSTITUTE?

One thing is certain:

American and British Pilgrims Society, newspapers, intelligence, tech and banks must confess that they are using Crown-controlled Qinetiq and SERCO to get over \$18 billion in U.S. defense contracts to build bio-weapons at The Pirbright Institute, Wellcome Trust, AstraZeneca, Crown Agents and Senior Executive Service (SES) to kill us.

In conclusion, as we go to press with this post, the author of the Biological Weapons Anti-Terrorism Act of 1989 (BWATA), international law professor Francis A. Boyle indicates that the University of North Carolina was involved with the Coronavirus outbreak in China.

The Bill and Melinda Gates Foundation heavily finances both The Pirbright Institute and the University of North Carolina. ...

The evidence is overwhelming that the Pilgrims Society (which is often called the Deep State, Senior Executive Service, Crown Agents, shadow government) is manipulating the public to achieve its new world order objectives.

The evidence is also overwhelming that the Pilgrims Society strategy, perhaps conceived long ago by Henry (Rothschild) de Worms, 1st Baron Pirbright, has been stealing and weaponizing patents since about the 1880's.

The patents being stolen focus on vaccines, wireless technology, communications, computers, propaganda, mind control and educational delivery systems. ...

On Dec. 20, 1889, De Worms, Rothschild and Salisbury supported the formation of an autonomous [British South Africa Company](#) to enable Cecil J. Rhodes to form a replacement corporatist (Robber baron) model to replace the British East India Company. In this model the lower classes would be ruled under socialism and culled with eugenics (war, poison vaccines, man-made disasters) while the upper class rulers would live lives of luxury under the British peerage system. In their system, free thinking could not be tolerated, therefore, the Judeo-Christian ethic of free will would have to be neutralized or abolished. According to Rhodes' 200-year plan, these commercial princes would operate as a secret society and use Jesuit stealth tactics to lie, cheat and steal to achieve their plan. Rhodes encouraged them that the resources to achieve this plan must be acquired at any cost.

The British South Africa Company would empower Rhodes to run South Africa as a corporation with its own laws, taxes and police force. This profligate governance model eventually led to Milner and Roberts establishing the world's first concentrations camps in the 2nd Boer War. Over 60,000 souls, including 14,000 children were murdered in these barbaric camps via suspicious outbreaks of measles, typhoid and dysentery. Family described to our researchers that children with even sniffles were taken away from their parents and never returned, presumed murdered. Notably, Henry Wellcome supplied his medicine chests full of experimental vaccines to the British Army that were used in these death camps. ...

Now we must return to Wellcome's, Rhodes's, Milner's, Robert's and Stanley's Parliamentary sponsor Henry de Worms 1's Baron Pirbright.

In his powerful positions at the Board of Trade and as overseer of the Colonies, De Worms was responsible for all patents and trademarks.

During this time, a bright young Serbian-born inventor named Nicholai Tesla was inventing wireless telegraphy, electric light, motors, power and free energy devices. His first patent, for an electric arc lamp, was awarded on Sep. 02, 1886 30, 1884. (De Worms assumed control of the Board of Trade in 1885).

Therefore, during De Worms trade and colonial oversight of the British patent office (1885-1892), Tesla filed 56 patents.

Hindsight makes it quite evident now that we can see the forces behind the transition of the British Empire from control by the British East India Company to a new form of British corporatist imperial fascism, that they would apply Rhodes' admonition to acquire resources at any cost, to stealing Tesla's wireless telegraphy invention for use in their imperial communications scheme for use in the Admiralty and as a propaganda tool to control the masses and "create public opinion."

It is our strong belief that these Robber barons created Guglielmo Giovanni Maria Marconi as their cardboard cut-out front man to create a British global monopoly named Marconi Wireless on emerging wireless telegraphy. In short, Marconi's alleged parallel invention of wireless telegraphy is all fake.

Indeed, during deWorms oversight of trade and the colonies, the British post office began secretly creating deals with Marconi Wireless without the knowledge of Parliament. The insider trading got so bad that [in 1913](#) it almost took down a future Prime Minister (David Lloyd George) and King's Counsellor Rufus Daniel Isaacs. These men while knowing that Marconi's monopoly (organized by De Worms and his Rhodes' relative Charles F.G. Masterman—later chief of the British War Propaganda Bureau) was unassailable, had secretly bought shares for themselves in Marconi America, just before Marconi Wireless Britain went public.

The unmistakable commonality here in Britain's new corporatist-fascist imperial plan for the new British Empire was to have unanimity of vision and direction across banking (dominated by Rothschilds), pharma (dominated by Wellcome), government (controlled ultimately by the Pilgrims

Society), Wireless Technology (controlled by the Marconi Wireless monopoly), propaganda (controlled by the Empire Press Union) and information (controlled by MI6, MI5, GC& CS, renamed GCHQ).

According to Rhodes' instructions, these men were compelled to nudge America back into the Empire. They used these levers of power and control to achieve this goals, and they are still at it today. After forming their secret Pilgrims Society and took control of global newspapers, intelligence, wireless and cable, they set out to recapture America.

Andrew Carnegie even bankrolled American education, textbooks and libraries to change American opinion about Britain in order to condition the population for re-assimilation.

They use the Crown Agents to press this plan globally.

They promoted the Round Table and Milner's Kindergarten.

They promoted Fabianism.

They promoted Zionism.

They promoted Bolshevism, Socialism and Communism.

They formed Reuters and Associated Press.

They direct *Daily Telegraph*, *Daily Mail*, *The Times*, *Washington Post*, *New York Times*.

They funded American libraries and textbooks.

They promoted the League of Nations.

They promoted the U.S. Federal Reserve.

They promoted Fascism.

They promoted The Inquiry.

They crashed the U.S. stock market in 1929 to consolidate their ability to control American banks.

They promoted the Council on Foreign Relations

They formed organizations like the Tri-Lateral Commission, the Atlantic Council, NATO, Bilderberg, Aspen Institute, Bohemian Grove to promote their re-assimilation of American into their new world order Empire.

They promoted NATO.

They promoted the World Bank and IMF.

They stole the social networking inventions from Columbus-innovator Leader Technologies via the IBM Eclipse Foundation to unify and accelerate their activities world.

The Crown Agents successfully formed the Senior Executive Service (SES), the Overseas Private Investment Corporation (OPIC), USAID, The Aerospace Corporation to take over the Executive Branch with a permanent Pilgrims Society bureaucracy.

We return to the question of why the Pirbright Institute—the patent holder of CORONAVIRUS—is situated on the same Ministry of Defence property as the Cobbett Hill Earthstation with massive array of powerful, weapons-grade antennas and dishes. And, that is only what we can see from satellite images.

As with most secret government labs doing often questionable and illegal research, these facilities are probably massive underground.

Fig. 24—Admiral Edmund P. Giambastiani, Jr., outgoing Deputy Chief of the Joint Chief of Staff became a QinetiQ director on Oct. 08, 2008.

One thing is certain, QinetiQ's current address in nearby Farnborough, near the airport, is not a good location for such satellites given all the interference from airport flight communications. In radio communications, once you get a "clean" spot free of extraneous electronic noise, you tend to keep it.

The Pirbright Institute records show that it is heavily financed by Wellcome Trust, Bill Gates, the European Commission, the World Health Organization and U.S. DARPA. In addition to Wellcome, the pharmaceutical AstraZeneca provides vaccine research funding also.

HOW DO WIRELESS TECHNOLOGY AND VACCINES GO TOGETHER?

Researchers all know that stress increases disease.

Imagine a Coronavirus specially constructed to lie dormant in a person's body until it is triggered by the right radio frequency.

Imagine nano tech devices that can hide inside a vaccine and be triggered by wireless transmissions passing through your body.

Imagine 5G technology that, on command from Cobbett Hill Earthstation, can trigger nano tech devices in all the bodies of the citizens in an entire city.

Is this farfetched? Not at all.

“**Directed Energy Weapons**” are being openly disclosed by the military. While their propagandists are quick to say the tech is non-lethal, but the assertions are not believable given their history of lying. Their own descriptions indicate the ability to stun, dazzle, blind, deafen, scream at “or even kill” at people while they think they are hearing the voice of God.

5G technology disperses these capabilities to be able to deliver signals to all people in a target area or group at the same time.

The Pirbright Institute appears to be using the Cobbett Hill satellite teleport facilities to communicate with their Pilgrim Society minions worldwide. Perhaps Nellie Ohr’s shortwave set was actually communicating with Qinetiq at Cobbett Hill and the Pirbright Institute.

ARE THE C.I.A., MI6 & DARPA BUILDING BIO-WEAPONS LIKE CORONAVIRUS VIA QINETIQ, SERCO AND THE PIRBRIGHT INSTITUTE?

One thing is certain:

American and British Pilgrims Society, newspapers, intelligence, tech and banks must confess that they are using Crown-controlled Qinetiq and SERCO to get over \$18 billion in U.S. defense contracts to build bio-weapons at The Pirbright Institute, Wellcome Trust, AstraZeneca, Crown Agents and Senior Executive Service (SES) to kill us.

In conclusion, as we go to press with this post, the author of the Biological Weapons Anti-Terrorism Act of 1989 (BWATA), international law professor Francis A. Boyle indicates that the University of North Carolina was involved with the Coronavirus outbreak in China.

The Bill and Melinda Gates Foundation heavily finances both The Pirbright Institute and the University of North Carolina.

CONCLUSION:

The evidence is overwhelming that the Pilgrims Society (which is often called the Deep State, Senior Executive Service, Crown Agents, shadow government) is manipulating the public to achieve its new world order objectives.

The evidence is also overwhelming that the Pilgrims Society strategy, perhaps conceived long ago by Henry (Rothschild) de Worms, 1st Baron Pirbright, has been stealing and weaponizing patents since about the 1880’s.

The patents being stolen focus on vaccines, wireless technology, communications, computers, propaganda, mind control and educational delivery systems.

L'aluminium étant un médicament toxique mortifère, son administration à l'homme est formellement interdite

Professeur Jean-Bernard FOURTILLAN

Ingénieur chimiste, Professeur honoraire de Chimie thérapeutique et Pharmacocinétique,
Expert Pharmacologue - Toxicologue spécialisé en Pharmacocinétique auprès de l'AFSSAPS (devenue ANSM)

Certificat d'expertise des vaccins contenant de l'aluminium

La promulgation par la FDA, en 1989, reprise par l'OMS, en 1996, de la Dose minimale Toxique de l'aluminium alimentaire, par voie orale, déclare :

Dose minimale Toxique de l'aluminium par voie orale :
1 mg / kg de poids corporel / jour *

Il s'agit d'un commandement de l'OMS, au-dessus de toutes les lois, **qui interdit formellement l'administration à l'homme de tous les vaccins contenant de l'aluminium**. Car cette Dose minimale Toxique de l'aluminium par voie orale a été calculée à partir de la valeur de la Dose minimale Toxique égale à 0,01 mg d'aluminium / kg de poids, dans l'organisme, pour une absorption par voie orale (passage du tractus gastro-intestinal dans l'organisme) égale à 1 p. cent de la dose d'aluminium administrée par voie orale. En conséquence :

Dose minimale Toxique de l'aluminium dans les vaccins :
0,01 mg / kg de poids corporel

Fait à Poitiers, le 20 novembre 2019

Professeur Jean-Bernard Fourtillan
Expert Pharmacologue - Toxicologue spécialisé en Pharmacocinétique

Ce certificat d'expert permet à toute personne qui en est porteuse, pour elle-même ou ses enfants, de refuser l'administration de tous les vaccins contenant de l'aluminium, car ils sont mortifères

* : Cette Dose minimale à Risque a été confirmée par 4 membres de l'Académie nationale de Médecine, dans l'article du Bulletin de l'Académie nationale de Médecine du 26 juin 2012 (Pierre BEGUE, Marc GIRARD, Hervé BAZIN, Jean-François BACH – Les adjuvants vaccinaux : quelle actualité en 2012 ? *Bull. Acad. Natle Méd.*, 2012, 196, n°6, 1177-1181, séance du 26 juin 2012). Ils en ont fait un mauvais usage, malheureusement pour toutes les personnes vaccinées, victimes de leur incompétence.

L'aluminium étant un médicament toxique mortifère, son administration à l'homme est formellement interdite

ABSTRACT

1. Introduction

The world is galloping towards a bright new future, or at least so industry would like us to think. The advent of 5 G promises unforetold connectivity and unparalleled integration with the virtual world (Agiwal et al., 2016). Technology will interact with almost every aspect of our daily lives (Boccardi et al., 2014), as well as expose us to rich and varied data streaming on our cellular and Wi-Fi devices. While all of this may be true it comes with a price tag. To afford such heavy data traffic we must accept an expansion in data channels (Ben Ishai et al., 2016), something that is not possible in the currently used frequency channels, and an attendant explosion in base stations (Ge et al., 2016). This is the rationale to move to 5 G, a FCC standard, which will start at 28 GHz (FCC Report 16–89), soon utilize frequencies up to 60 GHz and may eventually reach the sub - Terahertz range (FCC 50–50 Report).

Industry has assumed that there will be no health risks from this advance (T. Wu et al., 2015a, 2015b) and consequently it has based its planning on the recommendations of the International Commission on Non-Ionizing Radiation Protection (ICNIRP), published in 1998 (Guidelines for limiting exposure to time-varying electric, magnetic, and electromagnetic fields (up to 300 GHz).

International Commission on Non-Ionizing Radiation Protection," 1998). This recommendation limits exposure in the 5G range to a power density of 10 W/m² for the general public and to 50 W/m² for occupational exposure ("Guidelines for limiting exposure to time-varying electric, magnetic, and electro-magnetic fields (up to 300 GHz). International Commission on Non-Ionizing Radiation Protection," 1998).

However, **in recent years concerns have surfaced about possible non-thermal biological effects, and ensuing health issues, arising from cellular electromagnetic radiation** (Adams et al., 2014; Blank and Goodman, 2009; Darbandi et al., 2017; Hardell and Sage, 2008; Liu et al., 2013; Panagopoulos, 2017; Sage and Carpenter, 2009; Terzi et al., 2016). These should raise a red flag for the implementation of the 5 G standard. One reason being that the modality of our interaction

In the interaction of microwave radiation and human beings, the skin is traditionally considered as just an absorbing sponge stratum filled with water. In previous works, we showed that this view is flawed when we demonstrated that **the coiled portion of the sweat duct in upper skin layer is regarded as a helical antenna in the sub-THz band**. Experimentally we showed that the reflectance of the human skin in the sub-THz region depends on the intensity of perspiration, i.e. sweat duct's conductivity, and correlates with levels of human stress (physical, mental and emotional). Later on, we detected circular dichroism in the reflectance from the skin, a signature of the axial mode of a helical antenna. The full ramifications of what these findings represent in the human condition are still unclear. We also revealed correlation of electrocardiography (ECG) parameters to the sub-THz reflection coefficient of human skin. In a recent work, we developed a unique simulation tool of human skin, taking into account the skin multi-layer structure together with the helical segment of the sweat duct embedded in it. **The presence of the sweat duct led to a high specific absorption rate (SAR) of the skin in extremely high frequency band**. In this paper, we summarize the physical evidence for this phenomenon and consider its implication for the future exploitation of the electromagnetic spectrum by wireless communication. Starting from July 2016 the US Federal Communications Commission (FCC) has adopted new rules for wireless broadband operations above 24 GHz (5 G). This trend of exploitation is predicted to expand to higher frequencies in the sub-THz region. **One must consider the implications of human immersion in the electromagnetic noise, caused by devices working at the very same frequencies as those, to which the sweat duct (as a helical antenna) is most attuned**. We are raising a warning flag against the unrestricted use of sub-THz technologies for communication, before the possible consequences for public health are explored.

The effects of low-dosed and high-dosed low-frequency electromagnetic fields on microcirculation and skin temperature in healthy subjects.

Schuhfried O1, Vacariu G, Rochowanski H, Serek M, Fialka-Moser V.

Author information

Abstract

The purpose of this randomized double-blind cross-over study was to investigate whether a low-dosed pulsed low-frequency magnetic field or a high-dosed pulsed low-frequency magnetic field improves the cutaneous microcirculation and alters the temperature of the foot. Twelve healthy subjects (five women, seven men) aged on average 25.8 years participated in the trial. Based on a randomization list, one of the following three interventions was applied for 30 min through a cushion placed below the non-dominant foot: either a pulsed low-dosed magnetic field (100 uT, basic frequency 30 Hz with a frequency modulation) or a pulsed high-dosed magnetic field (8.4 mT, 10 Hz), or sham treatment. The individual treatment sessions were applied in intervals of one week, at the same time of the day. Cutaneous microcirculation (laser Doppler flowmetry) and temperature (infra-red thermovision) were measured in the dorsum of the foot and the great toe every 5 min during the intervention, and 5 and 10 min post-intervention. With both pulsed low-dosed magnetic field and pulsed high-dosed magnetic field, just as with the sham treatment, a minor drop in temperature and decrease in microcirculation took place. A two-way repeated-measures analysis of variance revealed no significant difference between the interventions for any parameter. It was concluded that a local application of a pulsed low-frequency magnetic field to the foot did not enhance temperature or cutaneous microcirculation in healthy subjects.

Effects of blood flow on skin heating induced by millimeter wave irradiation in humans.

Walters TJ1, Ryan KL, Nelson DA, Blick DW, Mason PA.

Author information

Abstract

We have previously reported species differences in the rate of skin heating in response to millimeter wavelength microwave exposure. We hypothesized that these differences were predominantly a function of species differences in the ability to increase skin blood flow during local heating. Mathematical modeling also suggested that, in humans, the rate of skin heating during prolonged millimeter wavelength exposure would be dependent on skin blood flow. In order to empirically test this hypothesis, we determined the role of baseline skin blood flow on the rate of cutaneous heating induced by 94-GHz microwave energy in humans (3 female, 3 male) using infrared thermography and laser Doppler imaging to measure skin temperature and relative skin blood flow, respectively. Millimeter wavelength exposure intensities used were high power (HP), 1 W x cm(-2) for 4 s and low power, 175 mW cm(-2) for 180 s. Skin blood flow was (a) normal, (b) eliminated using a blood pressure cuff to occlude forearm blood flow, or (c) elevated by heating the skin prior to irradiation. Results showed that for the HP exposures, these manipulations did not influence the rate of skin heating. For the low power exposures, occlusion of baseline skin blood flow had a small impact on the subsequent rate of heating. In contrast, a two-fold elevation in baseline skin blood flow had a profound impact on the subsequent rate of heating, resulting in a substantially lower rate of heating. Occlusion of an elevated skin blood flow reversed this lower rate of heating. **The results of these studies demonstrate that relatively small changes in skin blood flow may produce substantial alterations in the rate of skin heating during prolonged 94-GHz exposure.**

What are 'COVID toes'? Dermatologists, podiatrists share strange findings by Maura

Hohman: <https://www.today.com/health/skin-symptoms-related-coronavirus-doctors-discuss-covid-toes-t178991>

This skin condition could be the "new anosmia," experts say, because it often appears in coronavirus patients without any other symptoms.

he longer the [novel coronavirus](#) circulates, the more unexpected symptoms pop up.

To name a few, ophthalmologists have said [pink eye may be a rare sign of COVID-19](#), and [anosmia](#), or a loss of smell, can occur in patients with no other symptoms. [Coughing blood](#) and [tingling all over the body](#) have also been reported.

Now, another condition possibly linked to the coronavirus has captured researchers' attention. Dubbed "COVID toes" by the dermatology community, it can look like "purple lesions" on feet or hands, Dr. Esther Freeman, a dermatologist at Massachusetts General Hospital in Boston, told TODAY.

Coronavirus 'is going to be with us for some time,' doctor warns

April 17, 202004:15

The research is ongoing and rooted in "observation," Dr. Tracey Vlahovic, associate professor of podiatry at Temple University in Philadelphia, told TODAY. "There's no one-to-one correlation."

But because COVID toes may appear before or without other coronavirus symptoms, Freeman believes it should be a criterion for testing. Dr. Lindy Fox, professor of dermatology at University of California, San Francisco, agreed.

What are 'COVID toes'?

The condition usually starts with red or purple discoloration, and the skin may become raised or develop ulcerations, according to Freeman. It can be on hands, too.

Fox told TODAY it has appeared as "purple, red bumps" on the tips of digits and pads, or on the tops of toes or sides of feet.

People with COVID toes may feel the skin is hot, burning or itchy.

— David, 39, said his condition, which appeared to be COVID toes, lasted for about a week. Courtesy of David

One patient, David, 39, who didn't want to share his last name, experienced possible COVID toes. He wasn't tested for the virus, but told TODAY via email: "The affected toes were initially painful to touch and a bit sore while walking ... The pain and soreness lasted just over one week and gradually went away."

While other skin symptoms have appeared in COVID-19-positive patients, **this one seems "COVID-specific,"** Fox clarified. **According to a case report from the European Journal of Pediatric Dermatology, the condition has "never been observed in the past."**

What causes COVID toes?

Again, the research is just beginning, but experts have some ideas.

"One hypothesis is there's just a lot of inflammation caused by the virus," Freeman said. The condition resembles pernio, caused by exposure to cold

temperatures, resulting in inflammation which can appear as skin sores or bumps.

The other theory is that the symptom is due to blood vessel clots, which can occur in COVID-19 patients.

"I don't feel comfortable saying it's one or the other," Freeman explained. "It could be a bit of both."

How common are COVID toes?

It's unclear how common COVID toes are — because it's unclear what percentage of the U.S. population has the coronavirus, according to Freeman.

To answer this question and others, Freeman is running **an international registry** to document COVID-19 patients' range of dermatologic conditions. The registry, which launched last week in collaboration with the American Academy of Dermatology, includes reports of people who tested positive and those whose health care providers suspect are positive.

— Rachel Sommer, who lives in Long Island, New York, shared a picture of her foot condition on Twitter. She did not get tested for coronavirus, but her symptoms included a slightly raised temperature, decreased appetite, fatigue, difficulty breathing and a sore throat. Rachel Sommer

Rachel Sommer, who lives in Long Island, New York, shared a picture of her foot condition on Twitter. She did not get tested for coronavirus, but her symptoms included a **slightly raised temperature, decreased appetite, fatigue, difficulty breathing and a sore throat.**

Of the 90 to 100 reports from the first week, Freeman said nearly half addressed patients with purple lesions on feet or hands. For some but not all patients, it was the only symptom.

"I wouldn't take purple toes as meaning, 'I'm definitely going to get sick' or 'I'm not going to get sick,'" she added.

Based on the current reports, the condition seems more common in children and young people, but it's "not exclusive" to them, Fox said.

What's the treatment for COVID toes?

For patients who aren't experiencing "a lot of other symptoms, (the condition) tends to resolve on its own," Freeman said, adding, "There's not one particular treatment."

If you notice discoloration on your feet or other hallmarks of COVID toes, contact a dermatologist and ask to be tested for COVID-19, she advised.

Dr. Tracey Vlahovic had a 30-year-old asymptomatic male patient with what appeared to "seemingly no other reason for Vlahovic added that underlying or connective tissue disorder, providers should get a For patients experiencing might help, according to Fox.

"Some patients do well with "Some physicians are really don't understand, it's **What are other skin** According to a statement from manifestations of COVID-19) common viral infections — and Fox, Freeman and Vlahovic

Dr. Tracey Vlahovic had a 30-year-old asymptomatic male patient with what appeared to be COVID toes because there's "seemingly no other reason for it," she said. Tracey Vlahovic

- Bumps on extremities common with viral
- Vascular lesions on the patients who are very sick
- Gangrene (dead tissue caused by an infection or lack of blood flow) in patients with severe symptoms and underlying conditions

Ultimately, the importance of COVID toes doesn't lie in the condition itself. Rather, it could help researchers better "understand how much disease is out there," Fox said.

Freeman added that recognizing COVID toes and making it a testing qualifier might "change the course of someone's care ... You could be potentially infecting friends, neighbors without knowing it."

16.4.20 – Dr. Sircus - ICU doctors know best: <https://drsircus.com/coronavirus/icu-doctors-know-best/>

John Whyte, MD, Chief Medical Officer at WebMD said, "We have been seeing a high mortality for patients once they are put on a ventilator. Part of the challenge is that we don't always have enough data early-on in an epidemic. That's why it is important to talk to physicians on the front-lines and hear about what they are seeing. This creates more discussion and debate in the clinical and scientific community to help us determine the most effective treatment strategies."

The ICU doctor in the video below (which has gone viral) from New York suggests that we are

FCC 1997: "For current technology the important oxygen absorption peak occurs at 60 GHz."

https://transition.fcc.gov/Bureaus/Engineering_Technology/Documents/bulletins/oet70/oet70a.pdf

treating the wrong disease with the wrong measures. WebMD published, "As doctors treat more patients who are severely ill from COVID-19, they're noticing differences in how their lungs are damaged. Some patients coming to the hospital have **very low oxygen levels in their blood, but you wouldn't necessarily know it from talking to them.** [Check out what 60 GHz does – hypoxia. See Federal Communications Commission Office Of Engineering And Technology Bulletin Number 70 July, 1997 – graphic below] They don't seem starved of oxygen. They may be a little confused. But they aren't struggling to breathe."

"When doctors take pictures of their lungs — either with a CT scanner or an X-ray machine — those also look fairly healthy. The lungs may have a few areas of cloudiness and crazing,

indicating spots of damage from their infection, but most of the lung is black, indicating that it is filled with air.”

Study of the correlation between cases of coronavirus and the presence of 5G networks

Author: Bartomeu Payeras i Cifre¹

Available at www.tomeulamo.com/fitxers/264_CORONA-5G-d.pdf

Translated from the Spanish by Claire Edwards

Date: March-April 2020

Introduction

The COVID-19 pandemic and its effects in early 2020 have surprised scientists and politicians. If any study aimed at understanding the phenomenon and which consequently may help to clarify the causes of the pandemic is carried out, it should be promoted and/or taken into consideration. The correlation between cases of coronavirus and the presence of 5G networks has been addressed in alternative media and social networks. It is noteworthy that, at least in Spain, the media have not covered the scientific studies on the subject of 5G, nor asked the government any questions about this in the daily press conferences that it conducts to report on the state of the situation. The team of scientists advising the Spanish government has also failed to raise this issue.

It is common sense that the ability to demonstrate this correlation would be very important data to contribute to the understanding of, and the solution to, the problem.

Objective

To assess whether a correlation exists between cases of coronavirus and the presence of 5G networks. Without entering for the moment into subsequent cause-effect approaches in the case of positive results. Given that there is a sufficiently large statistical sample, it is possible for the results obtained to have a high level of reliability.

Material and methods

The study has benefited from the official statistical material published daily, which is a basic and valuable tool. It should be noted that in these publications, the methodology used for counting cases of coronavirus infections does not generally provide real data. In Spain and many other countries, it has not been calculated as there are not enough tests for such analyses. However, this does not alter the results of this study since it is based on the comparative rather than the absolute method of infection. Therefore, in order to avoid statistical error, we will compare the density value of confirmed cases of coronavirus (expressed in number of cases per 1000 inhabitants) instead of absolute values. Since the criterion for counting used by the health authorities within the same state or city is the same, the comparison of published values for different cities or regions will be equally reliable for statistics. Comparisons between different countries of confirmed cases, excluding asymptomatic cases, will be equally reliable. The possible exception of some non-transparent country that could manipulate the publication of its data is beyond the control of this study.

¹ Bartomeu Payeras i Cifre is a biologist specialising in microbiology working at the University of Barcelona who has published several research papers. He worked on and researched smallpox bacteria and viruses at the Hubber pharmaceutical laboratories in Barcelona. He created and worked in the Department of Marine Microbiology at the Oceanographic Laboratory of Palma de Mallorca. Clinical analysis at Centre d'Anàlisis Clínics in Palma. Genetic engineering: episodic exchange between *Paracolobacter* and *Citrobacter* C-3 with bacteriophage. Biogram, method for assessing vitamin B12 activity. Study of marine bacterial contamination in the Port of Maon. Professor of Mathematics, Physics and Chemistry and Biology at IEM. Discoverer of the Dali code with which he encrypted his gifts in his paintings.

The method used was to compare the incidence (no. of cases per 1000 inhabitants) between countries with and without 5G technology. Between regions of the same country with and without 5G technology. Between cities of the same state with and without 5G technology. Between different neighbourhoods of the same city with the 5G network map of that city. Comparing states with common borders with and without 5G technology. Comparing the case of one state within another, as is the case of San Marino.

- The data for each chart were taken on the same day.

Graphic results and data published below:

1. Chart of the 9 countries with the most infections worldwide.
2. Chart and rates of infection of the 5 countries with the highest incidence in Europe.
3. Chart and rates of infection of 4 nearby countries at the same latitude: Portugal, Spain, Italy, Greece.
4. San Marino: comparison of rates of infection with Italy and Croatia.
5. Italy: Incidence chart and 5G network.
6. Spain: 5G coverage chart and rates of infection.
7. Barcelona: Charts with 5G coverage and rates of infection.
8. Madrid: 5G coverage charts and rates of infection.
9. New York: coronavirus incidence chart and 5G network.
10. "Border effect" between Mexico and the USA.
11. Canada, USA and Mexico: chart of 5G networks and rates of infection.
12. Africa: 5G network chart.
13. Persian Gulf: 5G network and US military bases.
14. Chart and rates of infection of China and neighbouring countries.

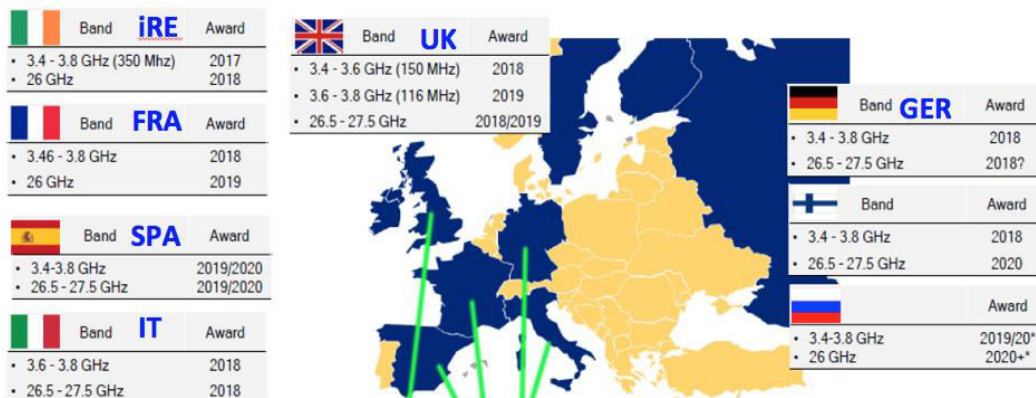

1. CHART OF THE 9 COUNTRIES WITH THE MOST INFECTIONS WORLDWIDE

2. CHART AND RATES OF INFECTION OF THE 5 COUNTRIES WITH THE HIGHEST INCIDENCE IN EUROPE

5G Spectrum in Europe

Focus on mid-band (3.4-3.8 GHz) and 26 GHz (24.25-27.5 GHz) for 2018+

3. CHART AND RATES OF INFECTION OF 4 NEARBY COUNTRIES AT THE SAME LATITUDE: PORTUGAL, SPAIN, ITALY, GREECE

Comparison of no. of infections per 1000 inhabitants in 4 countries near the same latitude and using 5G networks

The average for Spain and Italy is 2.4.

The average for Portugal and Greece is 1.09.

Conclusion: the two countries with 5G have 220% more infections.

Note: data for 4 April 2020

4. SAN MARINO: COMPARISON OF RATES OF INFECTION WITH ITALY AND CROATIA

No. of cases per 1000 inhabitants (Daily data *El Pais* 13.4.20)

ITALY
2.59

SAN MARINO
10.56

CROATIA
0.39

Result: San Marino - the first European state with 5G technology - is the state with the highest no. of cases per 1000 inhabitants. 4.07 times more than Italy and 27 times more than Croatia, which does not have 5G.

San Marino set to become the first 5G country

engineeringpro

by Richard Morten 19/07/2017 [Like](#) [Follow](#)

Following the signing of a Memorandum of Understanding (MoU) with Telecom Italia, San Marino is set to become the first country to go fully 5G.

Telecom Italia intend to use San Marino as a testing ground for the next generation of wireless tech.

“Why San Marino? Because the self-contained nature of the state, and its relatively few restrictions on the use of radio frequency makes it the ideal place to test the latest development in telecoms connectivity.

“Telecom Italia intends to double the number of its mobile sites within the country and will additionally install a network of small cells in downtown San Marino.”

Why San Marino? Because the self-contained nature of the state, and it's relatively few restrictions on the use of radio frequency makes it the ideal place to test the latest development in telecoms connectivity.

Telecom Italia intends to double the number of its mobile sites within the country and will additionally install a network of small cells in downtown San Marino.

Most infected Coronavirus countries: San Marino, Italy, Norway, S.Korea, Switzerland, Iran

Juergen T Steinmetz March 15, 2020 04:34

“Considering very small countries included the worst outbreak in the world is currently recorded in San Marino with 101 cases in a country of 33,400.”

<https://www.eturbonews.com/567130/most-infected-coronavirus-countries-san-marino-italy-norway-s-korea-switzerland-iran/>

The top 5 Coronavirus countries no longer include China. Currently, Coronavirus is terrorizing 152 countries and territories around the world. Most media reports the worst outbreaks by the number, which is not really giving the public a clear picture.

100 sick in a country like China is different from 100 sick in a country like San Marino.

Considering very small countries included the worst outbreak in the world is currently recorded in San Marino with 101 cases in a country of 33,400. It means

calculating by population it would calculate to 2994 cases in a million.

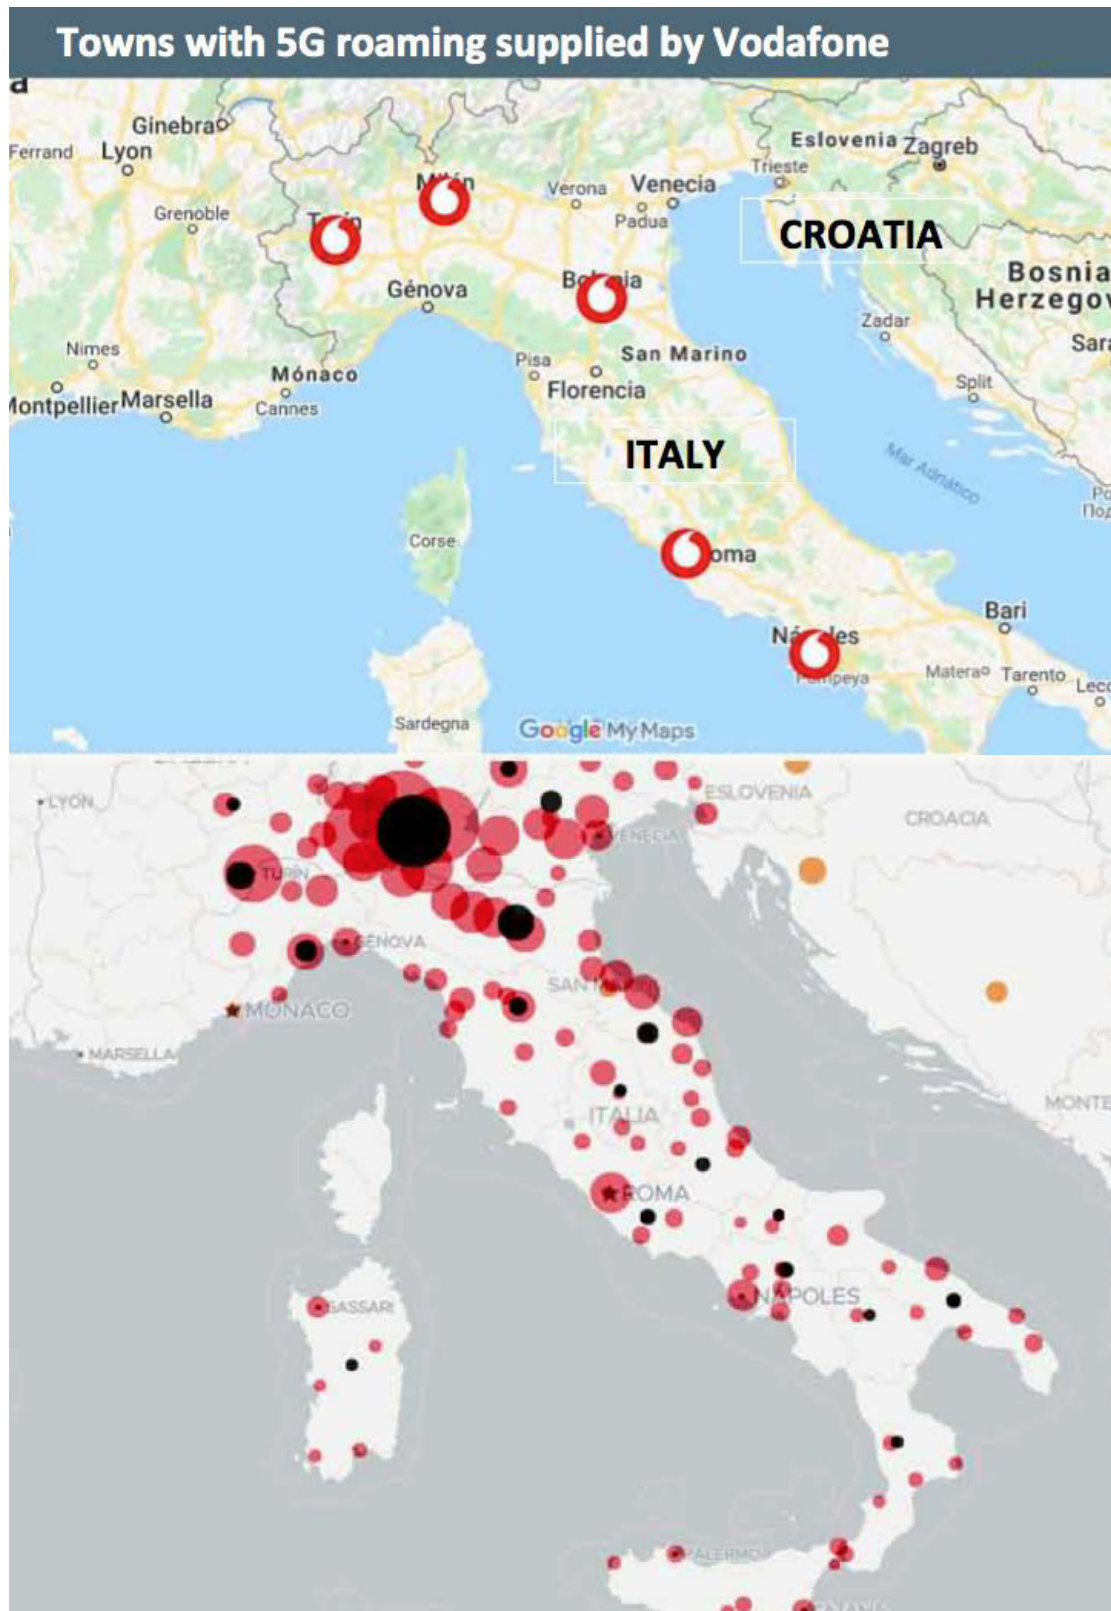

5.

If not considering countries with less than a million people, the worst outbreak currently is in Italy with 349.9 cases per million, followed by Norway with 204.6 cases per million.

ITALY:

INCIDENCE CHART AND 5G NETWORK

For a reliable study, the figures for infections per 1000 inhabitants for Turin, Milan, Bologna, Rome, and Naples should be compared with those for other cities without 5G (Vodafone data only)

6. SPAIN: 5G COVERAGE CHART AND RATES OF INFECTION

Data for cities with 5G should be related to the number of infections in those cities. Since data by city are not available, the comparison has been made with data for autonomous regions. This causes the data of the capitals to be diluted with those of their region.

This is why the comparison in autonomous regions with one or two provinces is more significant: Extremadura, Murcia, Madrid, Navarra, Rioja, Balearic Islands, Asturias or the Canary Islands. Also in Euskadi since the three capital cities have 5G.

TOWNS WITH 5G

CORONAVIRUS INFECTIONS (for autonomous region)

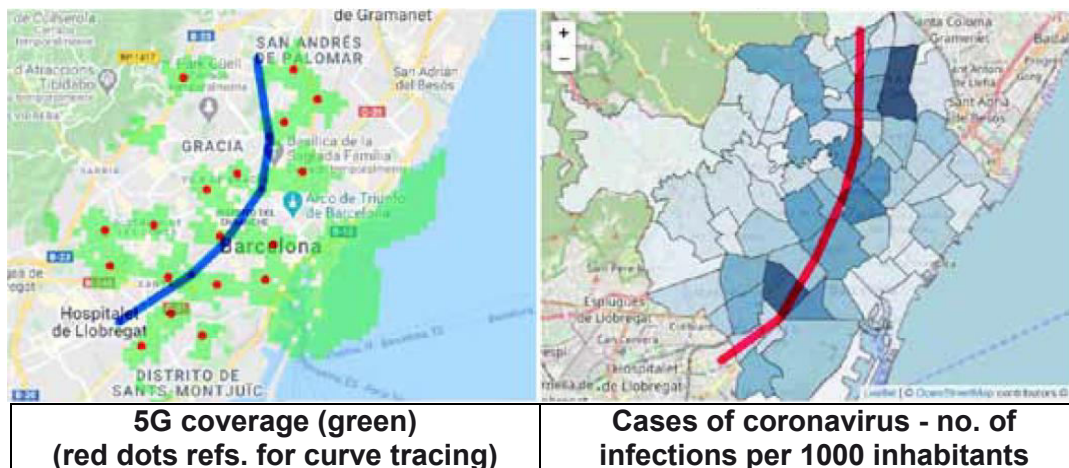

Infections per 1000 inhabitants Spain: 2.4

Madrid: 5.4 Catalonia 3.2 Navarra 4.5 Logroño: 6.62 Aragon: 2.3 Euskadi: 3.7

Extremadura: 1.7 Balearic Islands: 1.02 Murcia: 0.8 Ceuta: 0.8 Canaries: 0.7

7. BARCELONA: CHARTS WITH 5G COVERAGE AND RATES OF INFECTION

Correlation of no. of infections per 1000 inhabitants with 5G

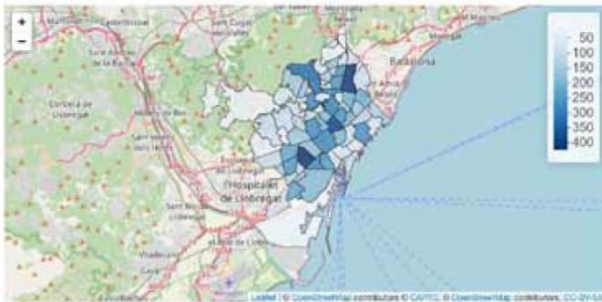

(Data 10 April 2020)

7. BARCELONA: CHARTS WITH 5G COVERAGE AND RATES OF INFECTION (cont.)

Sectoral maps – cases per 100,000 inhabitants

Coverage maps

A
Cumulative incidence of COVID-19 x 100,000 habitants

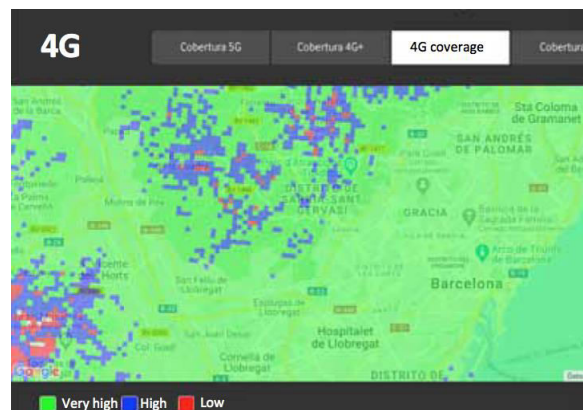

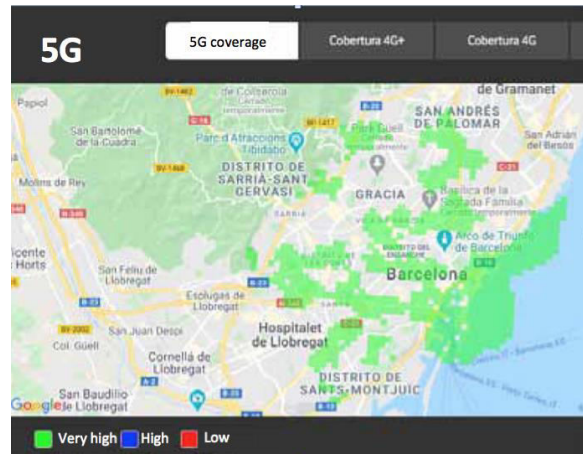

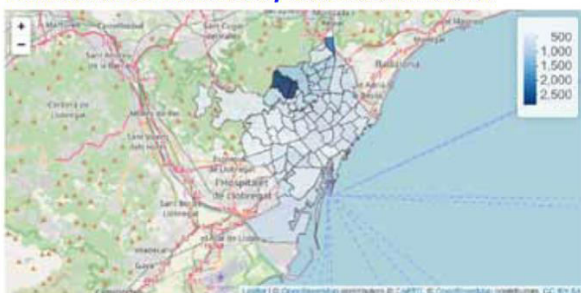

B
Distribution of income
Level of average income (per capita) for 2018 by section of Barcelona

C
Distribution of deprivation
Distribution of socio-economic deprivation for 2011 by section of Barcelona

D
Distribution of incidence by socio-economic level

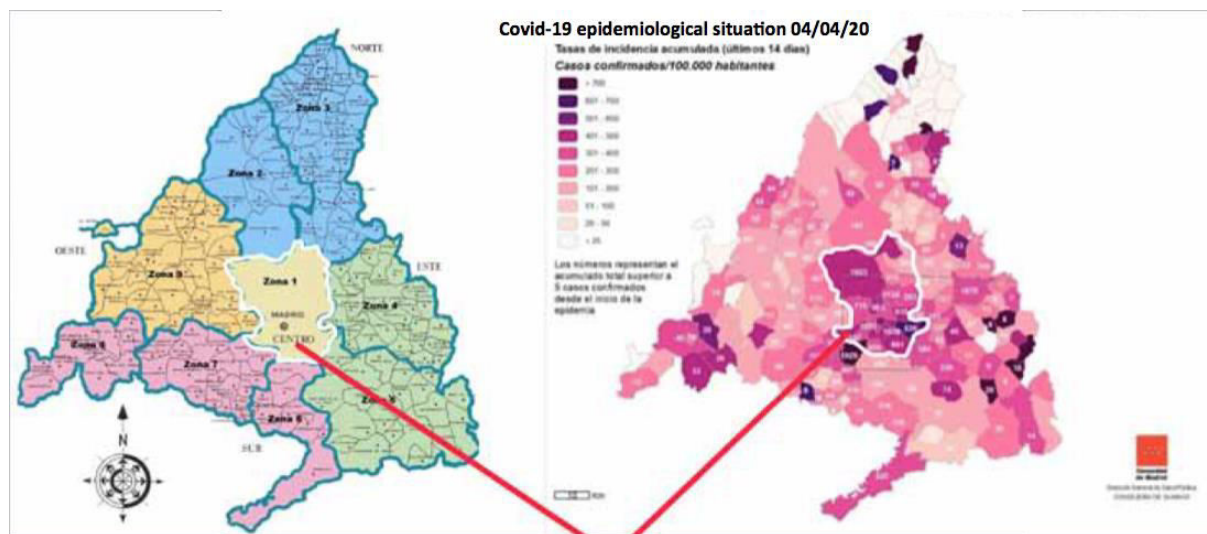

Note: the 4G coverage is general and therefore does not serve in this case to compare areas of incidence of coronavirus. However, the map of 5G is the one that best matches map A. This demonstrates that the 5G factor is decisive.

14. CHINA AND NEIGHBOURING COUNTRIES: CHART AND RATES OF INFECTION

No. of cases per 1000 inhabitants, 13 April 2020.

The countries neighbouring China have approximately 10 times fewer cases per 1000 inhabitants.

Results and discussion

To know whether or not the result obtained is that of a random phenomenon, a statistical analysis of the results of an experiment must be carried out to calculate the probability of the event occurring. The probability calculation is obtained by dividing the number of favourable cases by the number of possible cases. If the result shows that it is not a random phenomenon, it shows sufficient causal reason to analyse the causes.

To eliminate any upward errors we will always opt for the most conservative numerical option.

Let us therefore calculate the probability of three of the examples analysed above.

- (a) *Probability that the 9 most contagious countries on the planet are countries with 5G networks.*
There are 194 countries on the planet. As of 6 March 2020, according to GSMA, there are 24 countries with 5G technology.

Pr = $24/194 \times 23/193 \times 22/192$ (nine times in total) =
 = $0.1237 \times 0.1191 \times 0.1145 \times 0.1099 \times 0.1052 \times 0.1005 \times 0.0957 \times 0.0909 \times 0.0860$ =
 1.47×10 (high -9).

The probability is 1 in 680,000,000.

If we include Japan, which also has 5G and rates of infection similar to those of South Korea ...

the probability is 1 in 8,500,000,000.

- (b) *Probability that the 5 most contagious countries in Europe have 5G networks.*

There are 49 countries in Europe, among which it is currently difficult to know if they currently deploy 5G, as there are 5 that have declared a moratorium, and many others do not have operational networks although companies publish as if they were already operational when they have signed agreements. We will calculate it downwards, as a conservative option, we will assume that about 15 countries have operational 5G systems.

Pr = $15/49 \times 14/48 \times 13/47 \times 12/46 \times 11/45$ = 0.00157.

The probability is 1 in 637.

- (c) *The case of San Marino is highly significant.* It is located within the Italian territory, with a similar culture, economy, and social level, but presents much higher rates of infection. The only difference is the time of exposure of its citizens to 5G radiation, because it was the first state in the world to implement such technology on 4 September 2018, while in Italy it was 5 June 2019. This opens the door to debate about the likely influence of 5G on the increase in the rates of infection.

Pr = $1/194 \times 1/194$.

The probability is 1 in 37,636.

These figures are eloquent enough to make calculating the other cases unnecessary.

The results for the city of Barcelona (pp. 7-8) indicate that sociological factors do not have a significant influence on the rates of infection, but if we see a clear relationship with the 5G coverage map, which added to the 4G coverage, gives us a correlation between mobile coverage and the proportion of cases of coronavirus. If more data were available, this study should be extended to other cities.

Findings

1. The results obtained demonstrate a clear and close relationship between the rate of coronavirus infections and 5G antenna location.
2. This study does not analyse the beneficial or harmful effects on humans of 5G electromagnetic radiation. However, it does indicate a possible cause-effect in the current pandemic.
3. A "border effect" is significant, original and unique to this pandemic: it presents marked differences between contiguous states with and without 5G installation. It is particularly significant that the countries bordering China have very low rates of infection. One may also compare between Mexico and the USA or between Portugal and Spain, etc.
4. The case of San Marino is particularly significant. It was the first state in the world to install 5G and therefore, the state whose citizens have been exposed to 5G radiation the longest, and suspiciously, the first state in the world with infections. The probability of this happening is 1 in 37,636.

5. In the cities studied, Madrid, Barcelona and New York, this correlation is also observed. In the study of the city of Barcelona (pp. 7-8), it can be seen that the socio-economic factor plays a significant role.²

6. It is very significant that on the African continent, with scarce health resources but without 5G, the rate of infection is very low, except for some antennas in South Africa, which also presents the highest rates of infection in Africa.

7. The rates of infection are diluted. The rates of some regions are influenced by cities with 5G, but the rates of infection of these cities are diluted in those of the region to which they belong. So it is more significant, as is the case of Spain, to compare uniprovincial autonomous regions, than among those that are formed by 3 or more of the old provinces. Thus we see that some regions with 5G such as Rioja, Madrid and Navarra, have rates between 4 and 8 times higher than others without 5G. The same is true in other cities around the world where the 5G network does not cover the entire territory of the state or region.

8. These data and results have the value of being taken "in vivo", not based on prospective or laboratory studies. Never before have we had so much epidemiological information about a disease in humans to be able to produce scientific studies. A means of answering the question of cause and effect would be to disconnect the 5G networks, at least as a preventive measure, and see the results of the evolution of cases of coronavirus. So would studying the rate of infection in a state that declared a 5G moratorium after the pandemic started and studying if the statistics change. Given the evidence presented here, the data and conclusions of this study urgently need to be given due consideration. Given the current gravity of the pandemic, the media and political and health authorities have a responsibility to take urgent action. A failure to act in the face of the findings of this study could be considered negligent at the very least and very possibly criminal.

Bartomeu Payeras i Cifre, 14 April 2020

² *Translator's note:* there is a contradiction between the last paragraph of the section entitled "Results and discussion" and paragraph 5 of the section entitled "Findings". In one it is stated that "sociological factors do not have a significant influence on rates of infection", and in the other it is stated that socioeconomic factors do.
